Well i will post my earnings for past 4-5 months. only that hector guy sent more than 2500\$ i know how to milk them and i do it good, i count more than 15k just from September 2015. don't message me about methods and stuff i could sell it for 1000\$ minimum if you'd like idk lol :P if i sell it i will cut my earning half i think :D I don't cover gift card codes because they are already redeemed and already used like 100 times. just always try to think outside the box all this stupid saturated methods never normally work. these are just amazon.com gift cards, there are also earnings for paypal that i havenot posted here, i dont usually use pp but i have made more than 1k i believe.
