Thread: [>>> \[\\$2.99\] SAVAGE DOXING | EASY | DOX ANYONE <<<](#)

spooky hacker - August 2, 2016, 4:49 pm

T.O.S

You may not resell this ebook
You may not leak this ebook
You may not chargeback, all sales are final

Giving out 2 Vouch copies to users I deem worthy.

Cheers to [Meda](#) for the thread design.

Senpie - August 2, 2016, 9:08 pm

I'm willing to take a vouch copy. ?

BLKLXVESMATTER! - August 3, 2016, 9:29 am

I'll take a vouch copy. I'll write an honest review of your product.

?Replicant - August 3, 2016, 10:29 am

Interested in this how long are these books?

spooky hacker - August 3, 2016, 10:31 am

(Aug 3, 2016 10:29 AM)Replicant Wrote: [\[CITE\]](#) Interested in this how long are these books?
22 Pages, over 4,500 words. :)

?Replicant - August 3, 2016, 10:39 am

(Aug 3, 2016 10:31 AM)\$avage Wrote: [\[CITE\]](#) 22 Pages, over 4,500 words. :)
I'll give it a shot will review afterwards.

Edit:

The book is about 22 pages long (I had the advanced version). The book is well written and goes over various methods on obtaining certain pieces of information. The seller also listed some databases but these are pretty common. The guide does a great job of going in depth on how to get another person's information, stay secure yourself, and even provides suggestions on what to do after you dox someone.

For the price I'd give this a 5/5 considering others are charging more for practically the same info.

Regards, :)

Senpie - August 3, 2016, 1:22 pm

Design: This Ebook doesn't seem to worry much about a design, but everything is in a clear and more than presentable format that shouldn't be hard to read or follow along. (7/10)

Content: It contains various methods that are spot-on to follow and are simple enough to learn from. It also includes some pretty large databases to help you with doxing, and as a added bonus it has some pretty great tips and guidance on protecting your anonymity of which is something you will need to follow precisely. (9/10)

Overall: This is an amazing Ebook, and for the price it is certainly a steal! I personally recommend that anyone who has the spare money to get this!

Note: I received the Advanced Version of this Ebook.

Thank you for the review, I'm online right now so if anyone needs mentorship; purchase the e-book and I'll be able to help you.

BLKLXVESMATTER! - August 4, 2016, 3:22 am

I'd like to leave my vouch for this.

The design of the ebook is quite plain, but it helps you to focus on the text which is beneficial. The method he explains are great and will work for you, I've been using methods like these for years and I've never gone wrong. The book provides you with websites to use, databases to use as a starting point & provides you with ideas on what to do after your dox is complete.

If I didn't already know everything supplied in this ebook, I would definitely say this would be the perfect ebook to purchase if you're looking to learn how to dox. Thank you for letting me review your product. Good luck with sales! ?

d000nt - August 4, 2016, 4:08 am

Very nice ebook, would recommend for those who want to become a doxing god like Savage.

spooky hacker - August 4, 2016, 4:57 am

Definitely, purchase now! Before it's too late.

'OverSight - August 12, 2016, 8:08 pm

Do you have information of places to buy, trade, and download databases?

spooky hacker - August 12, 2016, 8:20 pm

(Aug 12, 2016 08:08 PM)OverSight Wrote: [\[CITE\]](#) Do you have information of places to buy, trade, and download databases?

Answered your question in pm. :)

Wubzer - August 13, 2016, 2:46 pm

Just bought, will do a review in a little bit!

EDIT

Great eBook, I vouch for this 100%. I bought the advanced and is very helpful, I suggest buying this eBook!

Yassuo - August 13, 2016, 9:25 pm

Vouch for my boy \$avage!!!

spooky hacker - August 14, 2016, 8:45 am

Sold a bunch more copies + there was an error with the autobuy which has been fixed.

ayy lmao - August 14, 2016, 8:59 am

Good ebook, I'd recommend picking this up just to have.

spooky hacker - August 16, 2016, 3:21 pm
