Thread: [Quick Reply Disappears?](#)

JuiceWater - August 3, 2016, 2:01 pm

Good day, chaps

Just a quick question, why do some features such as Quick Reply disappear and come back. Yesterday, I didn't have quick reply or access to other features, but the day before that I did. Anyone have a hypothesis on why this is?

Never happens for me. I suggest clearing cache.

Did you click the "hide box" button?

There won't be a quick reply box if a thread is closed, perhaps that's what happened?
