Can someone teach me how to sql inject ??

sxcurity - August 3, 2016, 8:25 pm

There's a ton of tutorials in the sql injection sub forum of website / forum hacking section.

No but linux(specifically kali linux) has tools such as SQLmap that would help with what your trying to achieve, look up how to set up kali linux on a VM and go from there

I'd get a cracked version of the full version of VMware if I were you, go to like piratebay or something its WAY better than the free version

Mafius - August 3, 2016, 8:55 pm

There's a bunch of tutorials in the SQL Injection section: [SQL Injection Attacks](#) that rhymes

Look up one of the tutorials online. It's mainly just finding an exploit in their code that allows you to upload your own SQL code. You'll need to know SQL to be able to SQL Inject.

R00t_H4x0r - August 4, 2016, 6:44 am

i added you Skype, message me when ever and i will teach you

Intella - August 4, 2016, 4:05 pm

Try SQLMap it's really easy to learn how to use and it's really easy to pick up. There's tons of tutorials on here and on youtube, it's up to you how to learn.
