You know what, for \$3 I'll make my first and only jump into eBooks and see JUST how bad it is. I'll let y'all know.

Exactly what I expected, this is a really bad "method", and I don't suggest anyone waste \$3 on this, unless you enjoy filling out surveys.

This method can make you about \$1-2 every hour of straight, constant work, or seller-described \$1 per month passively.

Thanks for the honest review ?
