Anything.

I have no unique skills.

kmz22222 - August 4, 2016, 8:47 pm

Anything.

My unique talent is writing fast with 93 WPM.

Your signature will be my signature 4ever.

Tree of Life - August 4, 2016, 9:31 pm

Firstly, I'd just like to acknowledge and thank you for this giveaway.

I am entering as I would love to receive the Elite Wolf Package.

To start off, whether or not it's important, I'd like to state some of my personal qualities; ambitious, easy-going, focused, co-operative and I have a sense of humour.

I admit I don't have any specific talents, although I am a very active user and am eager to learn new things and I think what you're providing is a fantastic way to do so.

As you said you would like to get to know some of us, my name is Dylan, I'm 18 and live in Australia. I'm in my last year of schooling (year 12) and am thinking of continuing a course I currently do at school at TAFE. The course is Information and Digital Technology.

If you would like to know more, do not hesitate to PM me.

Thank you for reading and again, thank you for the giveaway.

Stashy - August 4, 2016, 9:40 pm

I'll just make this quick and easy.

I'm entering because I'm extremely interested in receiving the Elite Wolf Package, and that's because I mainly want access to the private sub-forum. I don't have very many unique talents, however, I'm currently enrolled in year three of video production class, and I have a passion for creating and editing videos. I can also use Photoshop, and I guess I'm alright at writing stuff. I'd consider myself an active member of the community, and if there's anything you want me to learn, then I'm willing to devote time to sitting down and learning it one-on-one with you.

Good luck to all participants of this giveaway. I would use the signature, but it is unfortunately occupied as a contracted advertisement and as a result I am bound to keep it. Thank Yous. get it?

EDIT:

Reading over this thread again, I realized that I failed to mention why I think I'd be a good member of The Wolf Pack. I'll be honest by saying I'm not too sure what exactly The Wolf Pack is all about, but from my impressions, it seems like a little secret society working as one big team to talk, have fun, and learn from each other. I can make some good conversation, having fun is my middle name

(my definition of fun might be different from your definition), and I am always-always-always wanting to learn new stuff, especially if it involves video production and creativity. With that said, I believe that I could contribute to all three of the aforementioned areas -- talking, having fun, and learning -- and that is why I think I'd be a good member of The Wolf Pack.

Now, there isn't a lot about me that you'll truly learn without physically speaking with me over voice, but I am a pretty big memester goofster, which you'll come to find once you've gotten to know me after some time. I'm also good at games and play them a lot, so if The Wolf Pack plays often, then that's a plus. I'll leave the rest out for if and when we speak verbally, because I feel super cringey right now trying to describe myself. Anyways, my bad for forgetting to include some of this information, and hopefully I hear back from you.

Thanks man.

EDIT #2:

Added the signature. It's broken for me. =(

_M5~ - August 5, 2016, 3:10 am

Thanks a lot for the chance of winning this!

I'm entering for a shot at the Elite Wolf Package

I think I would be a great addition to the wolfpack as I have several years of experience in different aspects of computer engineering. I've worked with hardware management, IT-support, and one of the largest online education platforms. My knowledge in the field could aid other members trying to pursue a career or a part time job in the IT field. However, I am also open-minded and eager to learn, so I'm sure there is a lot I can learn from others in the community. If there is anything else you want to know just shoot me a PM.

I'd love to become an active member of the wolf pack!

Good luck everyone ?

STYLING - August 5, 2016, 3:44 am

Ideally I'd want an award but \$10 sure does sound nice, thank you for making this giveaway man, I would have put your signature but I am stuck with mine for a while, cheers!

Probably because you're not an upgraded user.

No worries though.

Love the username haha

BR?ND?N - August 5, 2016, 6:10 pm

May I enter for other users?

I want l33t for Curtis Jackson. I've seen him post around and I feel he's gonna be a member on here for a long time. He is kind, not a retard, and deserving. I don't know him personally, but I just like what I see from him. I want to see him upgraded :)

32x0LF - August 6, 2016, 12:31 am

I want the \$10pp or the wolfpack would love to try it out. Thanks for hosting this OP

anon4957 - August 6, 2016, 1:15 am

1.Elite Wolf Package

2. joining the wolf pack just for fun maybe?

not much unique talents. but, i'd say i can be an active user and (very) willing to learn new stuff
btw, im just a regular CS student, interested in tinkering with computers. reverse engineering,
learning to write rat and crypters and such...

Malthemar - August 6, 2016, 1:23 am

I'd like to join this contest for the Leet upgrade.

I'd like to join the wolf pack so we can learn from each other, I'm an extremely versatile user looking to make a difference. I enjoy graphics, UX UI work, PHP, VB.net, C.

I am an active user with roughly 10 posts a day (on average) and if you check out my threads and posts you'll see that I love to contribute. Lots of people drop requests in the Graphics Requests section and I do my best to fulfill them.

I designed the user interface for the new-to-hf EliosHTTP Botnet which you can check out in my signature.

I have written my own eBook and released it for free to HackForums here:
<https://hackforums.net/showthread.php?tid=5346473>

I have provided two graphics giveaways and soon I'll be doing the tutorials for these:
<https://hackforums.net/showthread.php?tid=5361048> and
<https://hackforums.net/showthread.php?tid=5360269>

Thanks for the opportunity. I would love to be considered.

-888- - August 6, 2016, 4:10 am

I'd like to enter this contest for the L33T upgrade and first of all I'd like to say this is generous of you for hosting this giveaway.

I have not been a very active member in the past for hf but I am starting to get active and average about 7 posts a day.

I'm a person who believes taking a new path will lead to many great things and I definitely think that when it comes to joining the wolf pack. You learn something new everyday and find a new hobby as well and the wolf pack would be that group who would get me interested into something new and have a new hobby.

I am 17 years old, I am a senior (Grade 12) at my High School but I am almost close to finishing earlier than other students since I almost have all my credits to graduate and will be going to a 4 year college with a full ride scholarship.

BrblGottaPoo - August 6, 2016, 4:25 am

You're a cool person.

Zorori - August 6, 2016, 8:37 am

First off thank you for offering this to the HF Community. Any of the prizes would be nice to have. The 10 dollars can help with expenses, the l33t would help me in ways give back to the forum by giving me access to certain features and the ebooks would be good for education. It's hard for me to say how I would benefit the Wolfpack for I do not know fully what the group is about solely by this thread, I would like to learn more about it however. The skills I have relate to primarily account cracking and other security and I know a fair amount about computer hardware.
