nope although having a stable job income is part of it. It is not just simply "GET A JOB" put in an ebook. There are 2 steps. I would pay \$2.50 for these steps any day.

Nope still not my method :)

This Ebook gives you a more professional method to make money than just applying everywhere, as I've found in my life just applying everywhere doesn't work, they want you to stand out.

Is this detailed or just something simple we can figure out ourselves?

Not detailed. This is more of a one method fits all. You will have to figure it out yourself as I can not be there with you every step of the way. But if you have any questions after purchasing feel free to shoot me a PM!

Oh and don't forget to use coupon code "HFMONEY" for 50% off at checkout!
