WTF!! ? The guy who hacked this site is Indian and this site is a Pakistani site. And you are saying poor Indians. Don't post if you can't get things.

If somebody can check my yesterday's posts; i was the one who was supporting the joint indo-pak forum & WTF, 3 websites hacked with remarks against me & my country. This was not acceptable.

Kute ke bache, mun band rakh. Just because you are on HF and you are Indian doesn't mean you should act like everything you know was made by you. Stupid cunts think they're all that.
