Quote:Not every zombie is the monstrous, brain-eating type.

One night while walking home from the convenience store, regular high school boy Ayumu Aikawa is killed by a serial killer, and is just as suddenly brought back to life by a necromancer named Eucliwood Hellscythe. One small caveat: he's now a zombie. Things get even weirder for him when he accidentally steals a magical girl's uniform, and thus her powers! Haruna, the ex-magical girl, orders him to fight evil creatures known as Megalo in her place until they can figure out a way to get her powers back to her.

It seems that life is just going to get stranger and stranger for poor Ayumu from here on out in Kore wa Zombie desu ka?.

Season(s): 2

Episode(s): 2312 for the 1st Season

2 for the OVA in-between the 1st and 2nd Season

10 for the 2nd Season

1 for the OVA after the 2nd Season

I somehow missed the fact that this show had a second season, despite watching the first season almost a YEAR ago... So now I'm watching the OVA in-between the 1st and 2nd Season and will be watching the Second season as well with the last OVA at the end. Fuck me.

It's a pretty alright anime. maybe I'll eventually watch the second season but it's not really a big priority of mine. The main necromancer girl was super cute.
