There are a lot of free keyloggers just look in this section.
Just read The threads that say [Free].
You can try them out and then take the one you like the most.

I also offer a totally free keylogger. ?

ExploTools - August 14, 2016, 1:34 pm

I offer one time use license almost for free (\$15) but is REALY REMOTE keylogger.

master.bob77 - August 15, 2016, 5:41 pm

has anyone heard of aaron remote keylogger.

americanpal - August 1, 2018, 6:34 am

Ardamax is waste keylogger, it wouldnot send logs, but just send test message.

Look for a paid crypter, and what do you mean by silent injection? All crypters have process/self injection feature these days.

Free and FUD dont go together in crypters.
