Your product next?

Foreword. I am opening this service because many people have asked me to review their product but I've been refraining from doing so because most eBooks have held a negative connotation. However, I've decided that I'd take the leap and open up this service where I'll review your product in exchange for a vouch copy. I won't guarantee a positive review, but I will guarantee honest feedback that you can use to generate more sales.

Assurance. As with any other deal, any party will have some lack of trust. [However, you can rest assured](#) that I will not do anything out-of-order and your products will be reviewed, and reviewed honestly. At the end of the day, it's your decision to trust me, and yours only.

Pricing. Free.

Vouches. I have hundreds of vouches spread across my various ventures on here:

lol, I'm willing to vouch for them if they actually work...AKA a very small percentage of eBooks.

You haven't been refrained. You refrain. That's an intransitive verb in passive voice. :)

Vouch for my boy miniman here. I gave this nigga an ebook to teach him how to ride a unicycle and master the unicycle. Right hand to God, my man Mini was unicycling EXCLUSIVELY!! through his house. Nigga went downstairs, made a sandwich, got some side pussy, and came back upstairs all on a unicycle.

If you want someone that'll care about a product that took you at least 5 minutes to create, you HAVE to.. I REPEAT.. HAVE TO.. GO to my nigga Mini.

Peace out to you bruv! Sorry about crashing that 4th of July party my man I promise I'll make it up to you and your Grandmother.

Peace out for real,
Sherman
