You can track if someone has read your pm here:

<https://hackforums.net/private.php?action=tracking>

I've also got scammed multiple times so I know how you feel right now OP

Black Kodak - August 7, 2016, 8:32 pm

Hmm, did you have tracking enabled??

Are you sure he read your message.

It does seem sketchy as fuck.

If he did scam you hes dumb as fuck, why scam for PayPal which can possibly be reversed?
Ctfu moron.

Anyhow you do not leave in the middle of the transaction, we are talking about money here.... I open this report because i realize that he has another open report...

<https://hackforums.net/showthread.php?tid=5327137>

to protect the next victim..... because i was an ass and i did not check that before deal with him.

Black Kodak - August 7, 2016, 8:42 pm

I understand, I know who leaves in the middle of a transaction?

That's shady as fuck.

Well best of luck getting your money back.

Damn OP don't surprise me if he did scam there been a lot of it going on more and more everyday. Hope to see this get fully resolved for you.

Batidas - August 8, 2016, 11:49 am

Yeap, this place is a scammer paradise. People are get repfucked witch is almost a account fuck.... for example a false report for some post and members like this motherfucker robber other members again and again without any consequences.

System is not fair for sure and it is not protect buyers at all... take a look at most of scam reports and deal disputes.... the scammers are "HQ" members , most of the time upgraded members....

He is still disappeared.

Batidas - August 11, 2016, 7:56 am

Money just refunded. Don't know what exactly make the user change his mind and decide to wear again his legit mask, but i will not suggest to anyone deal with him.
