Thread: [How much XP do you get per hour ?](#)

Juthetopp - August 8, 2016, 3:34 am

Yesterday i was at 300k and now 150k, same config

The 1975 - August 8, 2016, 3:42 am

I'm getting around 200k at the moment, was around 100k earlier.

?man - August 8, 2016, 3:44 am

I am getting about 250,000.

Haupy - August 8, 2016, 3:46 am

Around 120k per hour, sometimes 100k, sometimes 200k.

Not really sure why such a huge, maybe because people put more lures through the day than night (probably).

Up In The Smoke - August 8, 2016, 3:50 am

I'm getting 250k+ per hour, update your necrobot, new version is out that's maybe why it dropped.

Juthetopp - August 8, 2016, 3:52 am

can you share config here or pm me thx

0108dk - August 8, 2016, 3:56 am

52K, and no softbans and great sniping :)

'Ben - August 8, 2016, 4:06 am

100-120k per hour. All my accounts are coming up on level 30

ur cofing work with the new necrobot?

BobberK - August 8, 2016, 4:32 am

I'm "only" getting 17k per hour.

Anyone who have a nice XP config to share? :)

SIM-3122326 - August 8, 2016, 4:39 am

250k on Haxton

70k-100k Necro

I use necro on my 'main cheat' account because it has more settings on keeping specific pokemon with a specific cp/iv.

x2NaTe2x - August 8, 2016, 4:43 am

I'm getting average of 110k-135k/hr.

Owl of Minerva - August 8, 2016, 6:05 am

I'm getting 220k/h and i've been running it for 8 hours. Haxton will get you way more xp than Necro btw.

Tyranny - August 8, 2016, 6:08 am

Using the latest version of Necrobot I was averaging 75K xp an hour, however using the latest version of Haxton, I was averaging 245K xp an hour. I was doing this with two new fresh accounts which are currently in the mid level 20s.

Hackyr - August 8, 2016, 6:16 am

Haxton with 1 account = Approximately 300k exp/h

Haxton with 2 accounts = Approximately 240k exp/h

Didnt try adding more accounts because i heard it can get your ip banned.
