Are you out of your mind ?

I am well respectful person. If you see any bad links you can ban me

I gave torrents of important things. not waste things

Don't Capitalise The First Letter Of Every Word Coz It Looks Stupid. He posted dodgey links in the past, full stop, don't argue with that. You can make your own choices on which links you click.

Show any proof against me ? ?

You guys are just haters. You guys only like Benji,Haxor,Goodies person who serving their knowledge from many years.

I am also that guy who share knowledge with friends and help them too.

You guys shut your mouth if you have no proof against me.If you show any proof i promise i never ever visit this forum in future and close this account forever. But before this show PROOF ?

Read those advice and see links. There is not even a single harm

Thanks

His English might leave something to be desired, but none of the links or material he gave in that tutorial was at all questionable. A good handful of those resources are ones that I suggest to my students as well. Aakash / CodeNinja has my stamp of approval. ?
