Why you want it? / Why you deserve it? I love Shattered Skies and I have been using my buddies account to play for about a week now and I would love to have a copy of my own so that he doesn't waste my gear.

What originally brought you to hf? I came here for the Minecraft marketplace. Also to learn more about coding and socialize with people in my same niche.

Thanks for the giveaway mate.

Why you want it? / Why you deserve it? I would love Shattered Skies because a lot of my friends play it and I would live to be able to join and play along with them.

What originally brought you to hf? I came here because of the online accounts marketplace and a friend of mine used this a lot.
