LeetHost - August 8, 2016, 9:50 am

Hello HF members,

I've decided to offer free graphics for some time.

What kind of GFX I will offer?

- I will offer free Logo, Banner, Avatar, Signature. In case you need thread design, I would need a picture link of thread design you like, my designer will follow that pattern and will make a sales thread for you.

Eligibility?

- Due to high number spam requests by newbies and other members who actually don't need any GFX but wants to try as it's free. Keeping that in my mind, From today onwards, This service will be available for upgraded members only - L33T and UB3R.

How to avail this service?

- Simply PM me or post below your requirements, I'll take care of them :)

Delivery time?

- 24 to 72 hours.

Please don't SKYPE me your requests, Our representative over Skype will charge you for support and design request, as this FREE offer is only for HF.

Hi. My name is Jamie and i am currently developing a game. Have a look at my HF thread

<https://hackforums.net/showthread.php?tid=5298076>

The game i am making is a bar simulator in which the player is the barman/waiter and has to pour drinks/deliver food/ clean etc etc. I am making a Kickstarter to help fund my game but im not amazing at Photoshop or GFX. I can do some basic stuff, nothing special.

I am looking for a banner/wallpaper/game teaser screen in which i can use to show off my game as

i dont have enough of a game to make a trailer to show off my current work. Would you be able to help?

Ideally i would like the banner to have the title of the game which is "Ye Old Bar Simulator" as well as possibly having a drunk person and some bottles laying around. Having it in 1920x1080p would be great.

If you are able to help me then i will include your name in the game credits as well as reward you in what ever way i can.

Thank you,

Jamie

Hey dude!! Just seeking some help for an Avatar(Profile Pic) for Twitter/Twitch/YouTube, along with a Banner for each of those.

My handle id love featured in the Banners is: KinglyArthur
all one word

maybe for the Avatar, just "KA" or something... a Sword? idk, whatever you think.

Oh! and I love "The Elder Scrolls" Series, if it has something to do with that, it'd be tight.

id love the theme of the banner/avatars to do something with "King Arthur" but it doesn't have to be.
I love dark colors, maybe something to do with "Magic/Spells/Sorcery etc"

But anything is cool, I just appreciate the help :D

Review:

Pros:

Fast
Free
Understanding

I contacted leethost on skype and got an instant response back with when my GFX would be made and reasoning why it would be a few days later within 5-10 minutes of contacting them. On top of that that the GFX is very professional and fit for my requests.

Only Con:

Time zones which is a problem with many users on HF for different things.

Need this for a tech company kind of logo.

Name of this organization would be dillotech.

See if you could make this better, thank you!
