Thread: [Could someone make me a signature?](#)

Malthemar - August 8, 2016, 3:10 pm

Hello everyone,

I've just bought myself the Leet upgrade, and I need a signature! The computer I'm using doesn't have Photoshop. I'd be very grateful for any endeavors to fulfill this request:

Size: 450px x 150px

Text: ZNNK

Slight animated if possible.

Monochrome, please.

Thanks to anyone that can do this!

This is really nice.

Thank you very much.

Can you make this 450px wide and put a border on it for me?

Or is that a hassle?

Sure, what kind of border are you looking for?

Simple animated signature, nothing special tbh.

Just a thin, grey or white border.

Thanks!

LeetHost - August 9, 2016, 10:02 am

I've done it for you!

Malthemar - August 9, 2016, 3:29 pm

Thanks everyone.

This is my favourite.
