haha We made a deal over PM and he went offline so I sent a PM saying I was going to be offline I was going off to eat dinner with my family. He literally gave me about 30 mins before opening a report, hes ridiculous.

Besides the point, the details were sent but he now owes me 34 cents + 37 cents = .71 because he did not send as gift. he pays for services. When I ask for \$3 I better get \$3 and none taken out, he owes me now 71 cents ;)

Comes up to 2.29 not \$3. Send the rest or I'll open a community warning against you now.

EDIT: Info sent to him but I'm still down .71 cents from him

EDIT: Close this. Deal done
