Thread: [<<INSANELY In Depth PokemonGo Botting Guide + Monetization \\$100+ PER DAY>>](#)

Mephaela - August 9, 2016, 2:52 am

Hey there! I'm still a relatively fairly new user, so I'm looking to gain some rep through this E-Book!

Tired of struggling with Pokemon Go bots? Stuck getting soft banned all the time? Not sure how to optimize production by editing config settings? Only getting 10-20k exp an hour? This guide will teach you EVERYTHING you need to know, to optimize bot production, unban ANY account that has been soft banned and get you back on track to levelling your accounts and making BANK.

I level accounts at anywhere from 400-900k EXP per hour, that's 1-30 in less than 90 minutes, + 500k Dust, and a TON of items/candies. Within this E-Book, I will teach you Step by Step, how I am able to make \$100+ a day selling PokemonGo services, all my methods are 100% Whitehat.

I have one package that I offer, it's \$10, which features an In-Depth breakdown of everything you need to know to get started from scratch, whether you are a complete noob, or already experienced and looking to improve a system you already have, as well as 3 monetization methods I use to make money. This package also includes lifetime live support for any problems you may have, and a refund option if you are unable to put this E-Book to good use. This is a 3,000 word, 10 page E-Book that will take you from start to finish.

Thanks for your interest! Here's a couple screenshots of my PayPal sales within the last 2 days.

I would be glad to do a review ?

Since you are a new user, I believe it would be better to give out a vouch copy to someone just so we can be sure that this is not a public method. GLWS

Sent you a PM. Hope you like it.

This is my review of the ebook in which the OP provided me as a vouch copy and i am in no way related to the OP:

Quality and Quantity of this ebook were great with as much information as one person needs to get up to scratch with botting and how to make some good money out of this, this is mainly aimed at newbies however some more technical people maybe able to use some of the monetization methods which the user provides multiple with some unique ones which i have never seen before even though i have done deals within the Pokemon GO community!

Overall i would recommend this ebook to anyone who is struggling with methods of monetization or just wanting to bot on personal accounts effectively.

Got any proof of 900k exp per hour ?

Confound - August 9, 2016, 2:20 pm

Just reviewed the Ebook. While the method is mostly common knowledge, there are some unique parts to it, and this would be mostly beneficial for users who aren't familiar with Pokemon Go botting at all.

The book itself is 10 pages long, so there is no doubt OP put time and effort into this. Good luck with sales.

Can I take the last vouch copy? Thanks!

Mephaela - August 9, 2016, 4:58 pm

All vouch copes have been given out, thanks for the support so far!

Thanks for the purchase! I actually have a new method that I've been using today that has been working insanely well for me, made \$300 today with it. Will be updating the file, and I will send you the updated version when it's done!
