Thread: [0% Plagiarism on ANY Turnitin.com Paper](#)

theguysaccount - August 9, 2016, 3:09 am

Bringing you my own original method on how to get 0 percent (or any amount you want) plagiarism on turnitin.com.

The method is \$25 by paypal and \$20 by btc. (A small price to pay for the hours it saves)
Reselling of the method is not allowed.

IF THE METHOD DOES NOT WORK I WILL FULLY REFUND ANYBODY
Because Im so sure it will ^

Ive used this method a little to much during my school years because when its 11:50 and a paper is due at 12 theres not many other options :)

Add me on skype @ Chile.Guy

Some Proof:

Sorry mate but I will have to leak the method below. I know this is against the rules and that I can be banned but never mind. I do it for the good of the humanity.

The leak:

On a more serious note; good luck with sales.

Haha, I know of a crappy way to do this that you would get caught with. Maybe youre thinking of that ;)

Added some proof to the thread of another user I sold this to on another forum. If you use turnitin, and have a teacher that gives busy work, this is the thing for you :)

Sounds pretty cool, but I'd be terrified to try this either way. You can get kicked out of school if the

method doesn't work. Good luck with sales bro ?

Used it for a few years, its really undetectable. Of course dont make it obvious and turn in your friends paper. Just for health class I would just use webmd paragraphs

isnt this the one with invisible characters n shit

ChromeHD - August 14, 2016, 3:09 am

Oh and also this would be obvouse to markers now because you even get plagiarised for the word "the"

No you do not, have you not used the program it only shows phrases as plagiarized, that'd be retarded because then every single word of the english language would show up. Have you even used turnitin or did you pull that out of your ass

ChromeHD - August 14, 2016, 5:43 am

straight out my ass bro

V For Vendetta - August 14, 2016, 5:50 am

In any school setting, 0% is too little and a cause for suspicion. Ideally, you want your plagiarism to be between 5 to 8 percent (depending on the length of the essay). As stated in the thread, common words now are being detected by turnitin, making this method useless. I am not sales trashing but I am telling you as an established writer on HF.

Hmm okay. It's still suspicious though, and there's a chance for expulsion if you get caught.
