If you're using a fresh csgo account , just dont put the same phone number on the fresh account like you was have on the main / second.

And tip :

Dont cheat, not fun and making you losing money by buying csgo more and more.

Yes you will be banned again. Quit cheating and just play the game and you won't have to buy it 5 times.

After getting vacced so many times it's time to use a new cheat.

Draig9 - August 10, 2016, 4:46 am

Who even get's vac'd. It's only overwatch you should be worried about and that's solved by buying a knife.

"Dont cheat, not fun and making you losing money by buying csgo more and more."

bullshit? how?

lets do an example:

you bought insane cheat, has all the features and etc, you are going to server, get banned, going to mm and can only play 1 mm per 24h and then all the fun over. and sometimes cheats like aimware get you vaced and then what? you need buy another csgo account.

"you bought insane cheat"

"sometimes cheats like aimware"

kek.

Good cheats don't get you VAC'ed.
Only OW is the risk and that makes the statement invalid.

lyfelines - August 10, 2016, 7:27 am

Lol... never been vaced ever... get a better cheat!
