Monster Vision - August 10, 2016, 11:09 am

I got this method and created cpanel account. Looks good but they disallow most types of sites.

Like Spoiler [\(Click to View\)](#)

We specifically do NOT allow the following types of sites

Anything Illegal
Phishing
Streaming
File Lockers
Traffic Redirectors
Forex / Banking sites
URL Shortening services
Top Lists
Scripts that make automated FTP uploads
Pharmaceutical
Viral
Hacking
Warez
Proxy
Made for Adsense sites
Finance based sites (these include 'faucet' sites)
Any Adult / Porn
Paid To Click

Will they ban my account if I make a adsense site?
