Thread: [Checkmark's CS:GO Boosting Service \(Cheap\) \(No Hacks Used\)](#)

Checkmark - August 9, 2016, 1:21 pm

Hello everyone, I'm deciding to start up a CS:GO boosting service to try to give back to the community along with making a bit of money on the side.

About me

I've been playing CS:GO for 4 years now. I've been boosting and selling unranked accounts and leveling my friends for over a year. On my main I've never been below Supreme. I was ranked into Global 2 years ago and have accumulated 5300 wins since. I NEVER USE HACKS on any account besides personal smurf accounts.

What you'll receive

Once I gain access to your CS:GO account I will place you on a que among other participants of my services. Since I do this on my own. I only allow up to 3 people to be on a que at once. Your account will take anywhere from 12 hours to 30 days to reach the league you want, usually for someone just wanting to boost 1 league it takes 2-3 hours, 2-3 leagues 5-6+ hours, 4-7 leagues 1-8 days, ect. I don't use hacks on account that I boost. I legitimately level them during my own free time.

Pricing

Silver 1 --> Silver 2 = \$1.00
Silver 2 --> Silver 3 = \$2.00
Silver 3 --> Silver 4 = \$2.00
Silver 4 --> Silver Elite = \$2.50
Silver Elite --> Silver Elite Master = \$3.00
Silver Elite Master --> Gold Nova 1 = \$3.00
Gold Nova 1 --> Gold Nova 2 = \$3.00
Gold Nova 2 --> Gold Nova 3 = \$4.00
Gold Nova 3 --> Gold Nova Master = \$4.00
Gold Nova Master --> Master Guardian = \$5.50
Master Guardian --> Master Guardian 2 = \$6.00
Master Guardian 2 --> Master Guardian Elite = \$6.00
Master Guardian Elite --> Distinguished Master Guardian = \$7.00
Distinguished Master Guardian --> Legendary Eagle = \$8.00
Legendary Eagle --> Legendary Eagle Master = \$9.50
Legendary Eagle Master --> Supreme Master First Class = \$10.00
(May take Additional Time)
Supreme Master First Class --> Global Elite = \$15.00
(May take Additional Time)

If you want to boost through more than 1 account let me know! If time is on our side we can work something out. ?

User hacked on my account and it's now vac-banned. Deal with caution. Code Hey, this is my review of [url=https://hackforums.net/member.php?action=profile&uid=2866403]Checkmark[/url]'s service: [url=https://hackforums.net/showthread.php?tid=5369284]Checkmark's CS:GO Boosting Service (Cheap) (No Hacks Used)[/url], as requested in [url=https://hackforums.net/showthread.php?tid=5366570]this thread[/url].

Thoughts: The seller was nothing but courteous throughout the boosting process and he maintained stellar communication for over 2 hours. I asked him for his experience in CS:GO and I was baffled by his response: he is ranked at GE.

This is a sample of one of the games he played, while lagging, and against another smurf: [sp][img]https://i.imgur.com/yadyltw.png[/img][[/sp]

He managed to get me up to LEM after 2 games:

Vouch for this user.

Bottom lines (general): [list]

Silent hack so your customers don't see your cheat in the process.

Stop vac kick so no one suspects you cheat.

If I buy a boost, can you DuoQ with me then?

Or will this never happen again that you "accidentally" ban a other user?
