Not saying you deserve it, but that's what you get for not having Gauth/2FA activated. Secure your account man..

Good luck on retrieving your account, but the chances are slim.

I mean, they can just look at my IPs, and see that the email was changed. Wouldnt that pretty much verify it lol

If ur uber and 2fa is not authorized and your account gets jacked you get closed for being negligent.

I thought you meant the real Roy Wood\$ hacked you. Was kinda lost initially but oddly not really surprised. Fam this isn't where you post this anyway.
