Thread: [Good ol' Runescape Classic Nostalgia.. Relive the good times.](#)

Roxus™ - August 10, 2016, 10:28 am

Recently seen a private server that is bringing back the good old RSC days from back in 2001.

This is NOT Oldschool RS, this is not RS3, this is the ORIGINAL RS. 3 rounds of combat before running, no eating in combat, etc.

They've kept the entire game basically the same, with a few improvements. They updated the bank UI to be more like OSRS/RS3, where you can withdraw as notes, and right click on an item to withdraw or deposit a certain amount.

DOUBLE EXP EVENT starting Friday August 19th and runs til Sunday. Now is the time to play!

They've also added a auction house system, which helps people buy/sell items when you're offline. Alternating Wilderness from F2P only to P2P only for those of you who enjoy SSP's and prayer pots, and for those who like Swordfish and reg str pots. Alternates every 24 hours.

Server is almost entirely bot free, meaning economy is still booming. With swordfish being worth a whopping 600gp/ea

There is also a full party system, which helps leveling up. You share EXP with your party members around you, making leveling even faster.

ALSO - They have a fucking MOBILE client. You can play from any android device. (Phone, tablet etc. Anything running android)

Probably the absolute best RSC private server I've ever played, with at least 100 people online at all times. (fluctuates between 70-100)

Don't hesitate to try it out if you ever liked the good ol' RSC days... you might just get addicted.

Also for those of you who DO join, and you are decent at PKing, I need some team members. 40 199, 40 pray 92 ranged is the goal.

Sign up and download the client here; <http://www.rscrevolution.com>

Heres some info from their server posting on a RSC advertising site; this is not MY text, its simply copy pasted from their advertisement on a RSC Advertisement site.

Code Server Info

We are the #1 Private RSC server that exists. Our code is the most bug-free, our combat systems the most accurate, and our staff the most active. Runescape Classic Revolution is the closest to a true classic experience that you can actively play (with a few improvements!).

While in the search for acquiring that nostalgic feeling, we came to understand a few things about what made RuneScape great and what made it worse. We have tried to cut out the bad aspects of the game and streamline the process.

Experience Rates have been improved. But not too much! We cut the grind down as to make the game faster, but not outrageous.

Combat (Att, Def, Str & HP):

-Non-sub: 8x

-Subscriber: 9x
-Wilderness: + 1x

Combat (Prayer, Magic, Range):

-Non-sub: 3x
-Subscriber: 4x
-Wilderness: + 1x

Skilling Rates:

Non-Sub: 2x
Subscriber: 3x

Here's a few things we do differently (better!):

Batched skilling:

As you level up, the more you can automate skills. At lvl 20 to 29, all skills automatically repeat themselves twice. 30 to 39, they repeat 3x. All the way up to 9x at 90!

Global Chat: There is a global chat feature to always keep you feeling like you aren't alone training.

Bank: We have rebuilt the original bank interface and added lots of more features such as:

Bank organizing, you can organize your bank however you wish inside the bank interface

Bank notes: Goodbye the inability to carry large quantities of whatever! You can note every single item, which makes selling and buying that much quicker

Android Client: We have successfully ported a fully playable version of RuneScape client for android devices!

Party System: That's right, we cut down the grind even more. You can train with your friends while sharing the XP with party members in range

Auction House: Selling and Buying items made easy. Want to sell something? Put it on Auction House and just wait

Code Game Commands

::1 -- This allows you to speak in global(general channel) (ex: ::say Hey is anyone selling bowstrings??)

::2 -- This allows you to speak in global(PK channel) (ex: ::say Hey is anyone selling bowstrings??)

::wildy -- This tells you the status of the wilderness. We rotate between F2P rules and P2P rules every two days in order to appeal to everyone's preferences.

::online -- This tells you the number of players online.

::onlinelist -- This lists those players so you know exactly who is on.

::skull -- Puts a skull above your head. Useful for accepting a Death Match where both players want to be skulled.

::fatigue -- Puts you at 100% fatigue so you stop gaining experience. Useful for those low level pkers who want to stay at a certain point.

Code FAQ (Frequently Asked Questions)

1) Are all items and locations available for free? No members only?

a) Yes! There are no restrictions. Enjoy all the skills, items, and locations with or without being subbed!

2) Subbed? What is a subscription?

a) A subscription is purely a donation. You gain no items and no levels. It is a \$5 donation to help with server costs and the only benefit you gain is an added XP bonus. Instead of gaining 3x combat xp (3.5x if you are in the wilderness), you gain 4x combat xp (4.5x in wildy). With Skills XP, you gain

2.5x by being a subscriber, 2x without. It also allows you to remain in 1 spot for 10 minutes as compared to 5 minutes of not moving.

3) Can I bot here?

a) NO! We have a reputation as being the most anti-bot friendly server out there. We want our players to have a community of real people, not a cesspool of automated botters. We crack down on all bot users by actively monitoring players and having our own private detection methods (no spyware or secret files are put on your computer, it is all server side). You may get away with botting for a brief time, but we will always catch and ban you eventually.

Darryn - August 10, 2016, 1:04 pm

This has been around for quite a while, used to play it a lot on my phone while doing other shit. The mobile client is actually really good.

Roxus™ - August 10, 2016, 1:06 pm

Yup. The server has been up for 2 and a half years, and yet the economy is still booming.

Coal is 600gp/each, Swordfish are 600/e iron ore is 200gp/e .. its insane.

Almost no bots make it still worthwhile.

TLRK - August 10, 2016, 1:48 pm

oh wow this is really interesting

Roxus™ - August 11, 2016, 3:36 pm

If you start up, hit me up with your username and I'll add you. I need pking partners!

Raddify - August 13, 2016, 8:36 am

wait

so its rs classic
with some fixing?
same graphics too?

Hello.v4.0 - August 13, 2016, 9:22 am

Played a year or so ago. Community is crap, but I do have to give them credit on their Android client.

Roxus™ - August 13, 2016, 9:29 am

same graphics too?

Yup. the exact thing with a bit of quality of ease improvements.

(Aug 13, 2016 09:22 AM>Hello.v4.0 Wrote: [\[CITE\]](#) Played a year or so ago. Community is crap, but I do have to give them credit on their Android client.

A lot can change in a year my friend.

Roxus™ - August 17, 2016, 2:08 pm

Come on boys, come give it a try. I made over 3m in a single day fishing. With the Batch progression, its super easy. 90 fishing means you click once and it fishes 9 times for you.

Roxus™ - January 26, 2017, 9:43 am

Pushing this back up to the top. Server is getting better. They added an equipment system, and they are adding more custom quests. Also rumors about adding rings that actually benefit stats.

AFK - January 26, 2017, 4:03 pm

did they do a reset of accounts or something? i use to play this ages ago and my account isn't there

Roxus™ - January 26, 2017, 4:32 pm

(Jan 26, 2017 05:03 PM).Gentleman Wrote: [\[CITE\]](#) did they do a reset of accounts or something? i use to play this ages ago and my account isn't there

Erm, I'm not 100% sure. I don't think they reset it. I didn't play for quite a while and I recently came back (about 5-6 months) and all my chars are still there.

xenko - January 26, 2017, 5:14 pm

I wish they had an iOS client. That'd be the tits

Roxus™ - January 26, 2017, 5:21 pm

Blame Apple. Thankfully Android is much more less strict when it comes to apps.

I do blame apple lol.

Roxus™ - January 27, 2017, 4:22 pm

Lol 40 1 99 pking, and level 33 pking I've pk'd like 20 rune 2h's in the last 3 hours.

Skrill - January 27, 2017, 4:26 pm

Never liked RSC played it back in the day bit 2005 rs will always be the best
