Thread: [Why u need to stop smoking weed](#)

Hackforums97 - August 11, 2016, 12:43 am

Because it's bad for u.

if u smoke once a day it's bad and your addicted. You shouldn't be high all the time, only ON OCCASION. I am trying to learn this method. cuz if u fried 24/7 u gonna feel fukd if u don't blaze then u gotta spend money

You'll feel a lot better too, you gotta quit for a month.

I used to smoke 10-14 blunts a day (20-28 grams)
I have proof on sc ppl on HF can vouch

But yea now I'm down to 2-3 a day trying to stop slowly by next month. You'll only help urself!

hope u guise learned something

Are you sure that's the money you made and not some random number that just pops into your head? Just like how you gave your mom "\$100k". I bet if we got into a call and I ask her personally she won't agree to that. Just like how you "bought" your BMW. Might be your dad's or your mother's. Who knows? Maybe one day you'll give up on trying to be a fake and just start being real and payback the 100s of dollars you owe to others. Okay guy?

Also please stop stalking girls on facebook, you need to seek help.

You're being really salty here. Just because I make more than you doesn't do anything. You can probably get as much as I can in a few months if you "try" but I know that won't happen.

You are legit just making shit up go away you redundant turd licker.

I hardly talk to jeevin anymore but one thing I won't let happen is you make up some fufu lame shit cuz I aint wit it. Jeevin is an Indian and lives in Canada. If there is one thing you should know about Canadian Indians its that they smell, drink a lot of milk, work on farms, and tend to have lots and lots of money.

Boo hoo, Mr. Doxed himself on MPGH is raving about addictions to weed.

What we do to our bodys is completely up to us.
Same applies to people who self harm.

Marijuana is used by people for stress, anxiety, cancer, etc and it helps. If you wanna tell us to stop using things that help you're essentially telling us to never sleep or something.

Weed isn't an addiction it is a dependency.

For something to be considered an addiction it must have psychological and physiological traits.

mehhx - August 11, 2016, 2:31 am

I find this as something that's up to everyone for themselves. And with that being said, I'll just throw a quick example of what I mean. Most of the time for the past 2 months, I : wake up at 3 AM & go to work > finish work @ 10 AM > hit one > eat something > hit two > sleep an hour and a half > hit three > go to gym > hit four > play some games > hit five > go to bed at around 10-11 PM > repeat.

I say I feel like living rather a healthy life, because I do eat vegetables and fruits and I drink protein milkshakes. Now put that aside, last year's February was the first time I started smoking more than 2 joints a day, went further to 4-5 joints a day as time passed by. I also did meth for a couple of weeks and tried MDMA (ecstasy) like 3-4 times, but I concluded it's a total waste after the first try.

In my opinion weed is a good daily toy to develop yourself, as long as you don't let it get you lazy. You just hop on your relaxed attitude and let everything else be. Let your mind wander, become creative and expand your imagination. Now convert that imagination into new ideas and use them, play with them, get something big out of those ideas. To be honest, I find everyday weed uplifting and mind refreshing; feels like being given an ability to observe from a point of view better than the rest, it like a sound turning into melody.

Dredd - August 11, 2016, 2:33 am

Flacko you're a next level hypocrite you made a post yesterday saying drugs are bad for you but weed is occasionally okay.

Bluffer - August 11, 2016, 2:33 am

I agree with you OP in that weed can be addictive however I don't think you should be telling other people what they should and should not do in their lives.

There are much worse things after all, and we can't discount the medical benefits it provides.

I dont smoke weed by the way.

It is not about killing yourself, smoking 1 j a day makes you placed in a bubble.

This bubble will make you feel depressed and it feels like you can't get up in the morning like normal, get to the gym like normal, get out and being social with your friends like normal.

People not smoking weed will notice that you're being absent, as you look high/look like a stoner. This will affect your social life much more than you could ever imagine.

Why Is Smoking Bad For You?

Smoking is responsible for several diseases, such as cancer, long-term (chronic) respiratory diseases, and heart disease, as well as premature death. Over 480,000 people in the USA and 100,000 in the UK die because of smoking each year. According the US CDC (Centers for Disease Control and Prevention), \$92 billion are lost each year from lost productivity resulting from smoking-related deaths.

Of the more than 2.4 million deaths in the USA annually, over 480,000 are caused by smoking.¹

Smoking is the largest cause of preventable death in the world. Recent studies have found that smokers can undermine the health of non-smokers in some environments.

In an article published online in Medical News Today on 30 May 2013, we presented data demonstrating that, on average, smokers die ten years sooner than non-smokers.

20-28 grams per day?

You're dumb as shit for smoking that much.

No matter how you look at it, it's not a great story.

Personally, I've become a fan of only telling stories that make you look good - or if they make you look bad, they should at least make people laugh.

Danm, how much did that cost you to smoke that much a day?

Dabby Duck - August 12, 2016, 6:47 pm

im actually on a 1 month tolerance break rn, only 17 more days to go then ima try to smoke 3 times a week at most so my tolerance doesnt just shoot back up

dat boi - August 12, 2016, 7:17 pm

Honestly, I smoke the weed drug maybe twice or three times a week. What people don't realize is that marijuana has about four times as much tar as a conventional cigarette. (talking about a joint or blunt)

my most famous thread omgggg

Back up to 2 backwoods packs a day

IceCreamWidMyChicken - February 6, 2017, 12:11 pm

Thanks for making a thread to tell us that you smoked an ounce a day, which is a lie.

Thanks for also lying about you making 10k in 7 days. Trust fund baby, you seem to waste your money, If you were making \$520,000 a year, you would not be living in an average apartment with an average car.

2077 - February 6, 2017, 12:14 pm

the last time i'll be smoking is my own ashes motherfaka

Rod\$ - February 6, 2017, 1:06 pm

20-28g a day? Dam you must of been getting ripped

Zombified - February 6, 2017, 2:06 pm

There's no use in smoking that much a day. You're an idiot if you do.
And you listen to Kodak Black... just shows how old and how intelligent OP really is.
Mumble rap is the new shit and it's the worst shit yet

MORTY - February 6, 2017, 9:56 pm

fuck man 28 grams a day why would you even want to smoke that much a high off of like 1 or 2 grams is plenty for me.

Corver - February 6, 2017, 10:08 pm

Jesus you were putting two grams in each blunt? No wonder you went broke so fast

Sus Az - February 6, 2017, 10:10 pm

an ounce a day?

Hackforums97 - February 7, 2017, 9:46 am

Yea guys an ounce a day was for like 3 weeks or summ

??-? ??? ???? - February 7, 2017, 9:50 am

I've never been an obsessive smoker but I am questioning the legitimacy of this statement.

necr0dr - February 7, 2017, 9:54 am

I use it because it slows me down just enough to be able to function, otherwise I'm really hyper and manic. But I have really noticed my short-term memory has gone down which is difficult, kind've a double edged sword.

Jeevin AKA Flacko is a piece of shit scammer and liar I can confirm everything that was said earlier in this thread

:)

HF is the only place such a messed up individual like him can thrive and get away from his shitty real life.

I don't even understand why people want to be high 24/7. It's so damn boring! I use it for sleep aid and that's enough.

????s? - February 7, 2017, 12:09 pm

I'll be happy when your account is finally closed.

Donald Trump Jr. - February 7, 2017, 12:14 pm

(Aug 11, 2016 12:43 AM)Flacko Jodye Wrote: [\[CITE\]](#) I used to smoke 10-14 blunts a day (20-28 grams)

I have proof on sc ppl on HF can vouch
How would you smoke 20 grams a day, that's a fckton of cash

The Poseidon - February 7, 2017, 1:14 pm

I understand where you're coming from OP, ever smoke so much when you light up a blunt and you're like why the fuck have I lit this up? And you stare at it in disgust and you carry on smoking it because you can't re-use it?

Best of luck with the cutting down, take it slowly and eventually you'll be clean.

I do agree it's more of a social thing more than daily thing, was smoking consistently for 3 months like smoking 1-2 grams a day but it mentally fucked me up and made me do things I would never do sober (break up with my girlfriend for no reason at all) and I would also find myself crying and hating myself for no reason at all.

Good luck buddy!
