UPDATE:

OP haven't focused alot on any design for the e-book (isn't really necessary, becuae it keeps the ebook clean). I must say that the information that it contains is really brilliant and promising, although if you are stupid there's a chance that you fail once or twice. Overall it's a well written ebook and you can't misunderstand the instructions becuae it explains for you step by step. So if anyone out there are looking for some free fast food, I really recommend getting this ebook becuae you WILL earn back the money u spent on the ebook if you use these methods.

- it will work most of the time, i gave 90% because those of you who aren't very good at being social, might struggle 1 in 10 tries

Originality : 4/10

- i mean to be real, i've seen this method everywhere, whether phrased differently or used different word's.

Ease of Use : 10/10

- This is VERY VERY simple. Not even 10 minutes or work for free food.

If anything purchase related is needed you can PM me and I will respond almost instantly :)
