Beanie - July 12, 2010, 1:39 pm

Very nice, if that's the kind of game you like then welldone :) Enjoy it :P

Protoshadow - July 12, 2010, 2:42 pm

Final Fantasy series are awesome, I like them very much, You are lucky to test the new one :)

celgene32 - July 12, 2010, 4:47 pm

I am a tester aswell, but i just hate that rediculous test schedule...

Since it is a beta it ok,but there are lot of things that they should fix, even major problems like optimization,
and those funny client errors.

Oh and best things are the solutins that the devs give about client crash/error:

"Open the window,grab your dog,throw it out, run to your PC and push the Enter 2 times while facing West."

"You do not have dog,oh well shit happens".

So it has potential, but there is a long way to go.

icedrac - July 12, 2010, 5:59 pm

Are you in the PC version or the PS3 tester set?

Icedrac

FrankNbeans - July 12, 2010, 7:34 pm

PC tester set. PS3 testing starts later idk when..I don't have a PS3.

Clegene32 it's gonna have glitches like any other alpha/beta..heck ffxi still has glitches and it's been out for years. I'm just excited to be able to play the game before everyone I know..I'm gonna go log

into my ffxi account and brag to my LS now lol.

Sudo - July 13, 2010, 9:25 am

Idk about this one but gratz. FF was bad ass and then the red headed stepchild (AKA FFXIII) came out and killed it. I <3 FFI i play it when I am bored on a NES emulator.

FrankNbeans - July 13, 2010, 9:44 am

I hated 13. Bought it, played it for about an hour and returned it. FFXI on the other hand, I have been addicted to for the past 5 years and hope 14 will do the same if not more!!

Kevon - July 13, 2010, 10:31 am

I freakin hate you </3. >.<

proXace™ - July 13, 2010, 10:42 am

Congratulations!.

I don't wanna play FFXIV on PC, i'm gonna wait and try to get approved for the beta testing on PS3, although I still hate you lol. Wish I was beta-testing it!

FrankNbeans - July 13, 2010, 11:45 am

Geee whiz, I think this is the most I've ever been hated in my life and loved every second of it!!

I got accepted to the ps3 set aswell. Very epic game.

qqhf - July 22, 2010, 11:19 pm

I sold a beta code to a person. I don't want to participate in FF anymore. They stuffed it up in the new ones.

Great Prosperity - July 22, 2010, 11:21 pm

I didn't like Final Fantasy,

all the actions were too automated. It really sucked.
