Thread: [Who survived the BAN WAVE!?](#)

DreX - August 13, 2016, 5:59 am

I was wondering how many people actually got pass the ban wave who bottled? Did they delete all of your accounts or the main high level ones? Are we safe if we did avoid it and will there be another WAVE ?

I managed to get lucky with one of my back ups but my main account went bye bye.

Level 39 still working wooohooo

GetGorgonized - August 13, 2016, 6:01 am

I did not lose any of my accounts. Around 10 lvl 30's and 5 lvl 35's. I used high exp configs as well.

Guess I got lucky ?

Vassilios - August 13, 2016, 6:01 am

My level 30 and level 27 are fine and dandy. I did not have any other accounts.

ToxC4L - August 13, 2016, 6:01 am

Level 40 still working. However i quit botting 1 week ago maybe that saved me

DreX - August 13, 2016, 6:06 am

Im still shocked funny thing is i went 22 levels legit on that account and bottled to about 30. With my backup i bottled all the way through and they didnt ban that one...

That's cause you are Crowley.

How do you know if you're banned ?

Does it says like "You're banned...." when trying to login or something ?

I'm confused cuz I'm unable to login due to "servers are humbled" to my one PTC account.

All other accounts work for me, but that one won't login...

Heartboy - August 13, 2016, 6:17 am

I should have snagged a 30 when I had the chance. My 27 is chillin' illin' though.

Anth?ny - August 13, 2016, 6:21 am

I have 7 accounts which all survived C:

niqqq25 - August 13, 2016, 6:21 am

Since 70% of all bottled accounts survived I dont think so that it was last ban wave.

1MPERATOR - August 13, 2016, 6:32 am

None of my accounts have been banned.

Considering to start selling accounts, which did survive the banwave, soon.

DKProdigy - August 13, 2016, 6:39 am

None of my accounts got banned either. alot of 30+ and even my sniping accounts with ALOT of 100IV pokes have not been touched.

Kobe Bryant - August 13, 2016, 6:43 am

All my accounts are safe. Haha.

Nikhufu - August 13, 2016, 6:43 am

I have 2 accounts. My main is level 22 with no botting at all while my other account is bottled to level 30 with pretty much all pokemons sniped. Both accounts are still working.

KazerTheAmazer - August 13, 2016, 6:45 am

not one been permed, making a good chuck on money also :)

Sigma - August 13, 2016, 7:03 am

I think my account got banned. I definitely didn't think that it was going to since I stopped bottling a while ago. So I am banned if it says that it cannto find game data? Just to double check with everyone here incasee I am wrong lol.
