Not bad at all bud! looks good :) you should really put this in a spoiler though :P

Doesn't look to bad, care to share the original render?

One thing I would change would be the right gray-scale 1/4 circle, it doesn't seem to enhance any other key features of the piece as apposed to the left side where it does help the text pop.

Looks really nice.

Like Bear said, the only thing I would change is the gray scaled 1/4 circle. It doesn't look so pleasant. Everything else looks good.

8/10
