Thread: [\\$125 to \\$1800 on Satoshi Mines](#)

Krater+ - August 15, 2016, 10:50 am

I've always played satoshi mines and for some reason the "methods" I discover and apply always seem to evolve and become more profitable. This time I seriously made some good profit though.

I decided to throw \$125 in to Satoshi mines after testing my updated method. Look at the damn end result. I only played for like 4 hours in total so it was less than a day...

Damn.. I'm not the one to believe in gambling methods, but that's rather impressive. Congrats.

Now don't gamble it all away. :)

Get rid of it asap and start from \$125 again, don't wanna lose it all!

Nice method tho

Any chances you would be willing to share some tips and advice on SatoshiDice gambling? Nice profit, btw.

Alright, I can respect that. So, what are your plans? Are you going to gamble more, or just take all of that profit in and spend it on something nice?

Batidas - August 15, 2016, 12:19 pm

Nice earnings, hope it works for you always.

Meow - August 15, 2016, 12:20 pm

When will you release your "private" method?
