Thread: [Negative rep for being paranoid?](#)

MrPlaidSquirrel - August 15, 2016, 5:35 pm

I was paranoid over a crypter and really didn't know for sure if it was safe, so I get called autistic and get a negative rep for being a little paranoid. How can I get my rep back up? I dont really do much on here in terms of money trading or software. Am i stuck at -3 rep now?[/align]

the neg you have is perfectly valid by the rules

Don't complain about reputation on the forums, unless the reputation claims that you're a scammer and he doesn't provide a link to a legitimate scam report then it's valid. Unfortunately anyone can give you a negative rating with any type of comment and it's still valid.

You're bound to receive negative ratings from ignorant members, it's inevitable. Just ignore it and work on being a quality member so that your reputation stays positive.

As said the rep itself complies with the rules, but I'm sorry to hear that man. That's how things work here sometimes and you just have to move on.

There's no real methods to getting your rep back up. I'd say just help a few people out, make HQ posts, and stay HQ throughout your time on the forum.

Being paranoid is a good quality.

Don't let one bad apple ruin the entire batch.

Bluffer - August 15, 2016, 6:17 pm

It's valid. People can rep you for almost anything they like. The other day some moron negged me just because I sell eBooks. Don't worry about it.

Nothing wrong with the reputation.

Your cross posting on the other hand, that can get you banned.

That reputation does not break any rules. ?

What is reputation abuse?

Reputation abuse can be very complicated subject matter. Here is a list of the following ways reputation can be viewed as abuse.

- Flaming: Using extremely coarse language to describe or berate a member.
- Reputation as a currency: We do not allow the buying or selling of reputations.
- Gang Rep: The act of coordination with other members to raise or lower a member's reputation is not allowed.

- Rep Coercion: Using intimidation, threats, or blackmail to get reps added or removed.
- Rep Requesting: You cannot give hints, tips, or request reputations.
- Scammer Reputation: You're required to leave a link to a Deal Dispute thread you have created to infer someone is a scammer (ie: scammer, scams, chargebacks, scamming). Please note that a Deal Dispute link must be your own thread you've created. It cannot be a thread opened by another member.
- Deal Dispute Linking: We don't allow you to link to a Deal Dispute forum thread that's opened by another member.
- Reputation Collusion: Agreeing to participate in reciprocal reputations with a member.

Yeah don't sweat it, most my neg reps are from bullshit.

guys on top of me, don't complain about negs and just keep going. I was negged when i first started HF by some loser and i was mad as well but realized oh well it's just a neg. I kept being an active member of HF and enjoyed it for what it has to offer. Now today I am finally an uber and he got his neg right back. So just keep on guys and stay HQ on HF and that neg won't matter.

I'll look at that negative rep :(, that sucks mate! Mine was a random one though!

Seriously, who fucking cares about a reputation like this? Especially when the rest of the reputations are positive. I personally, and many other HF members too, wouldn't care at all about such a reputation since it's common on HF to just give someone a DWC reputation although the actual reason for the reputation has nothing to do with deals or whatsoever.

Ignore in the future reputations like that. Me and a lot of other members do it too and we are happy on HF though. And besides, these reputations don't violate the rules at all.

Yo dude, just because i know you and you want to be successful in the market plus you arent a prude, I PM'ed the dude about possibly changing it, but idk if it'll happen.

OT: getting negged is like shitting yourself, its bound to happen sometime, and its messy.

As long as people know you are HQ, then that rep wont mean shit, just some pixels

As far as the rep goes, I'm sorry but it's valid.

As far as the user goes, I'm not sorry, he's an asshole. There are some people like that on here.
