This image is so stunning! I love it. The level of detail is incredible.
What do you all think of this art?

ChromeHD - August 16, 2016, 1:39 pm

Looks good its not my thing but probably others would live it.

Coton Pker - August 16, 2016, 1:39 pm

it looks like one of those huge animated paintings you see on the wall of a chinese restaurant :D
it's pretty sweet

Gem - August 16, 2016, 1:41 pm

This is really nice and calming to look at. Very beautiful indeed.
And really detailed for this style of art!

I don't remember why I posted that, but I don't lie in reputation... That said, I don't remember it.
I've updated it for you.

Reminds me of a game i used to play on DVD players lmao. It's pretty sweet on its own and damn those details are so nice.

I updated it because you're in my fucking thread complaining about rep.

You're LQ as shit. PM me if you're bothered.

I give Neutrals to people who are annoying, LQ, or stupid. I don't ever Neutral people unless they deserve it. I don't remember why I repped you, but I know it would've been for good reason.
