Thread: [HyperX Cloud 2 Issue](#)

pLucy - August 16, 2016, 6:49 pm

How do i fix this has anyone had any problems like this with this mic its basically brand new
[img]http://image.prntscr.com/image/13448753e8d84e62a6dad4fddd4bde38.png[/img]

it won't let me move the bar up i tried unplugging it and plugging it back in.

You can only change the mic volume with the controll thing on the headset cord, it wont show the volume in windows no worries.

I use a cloud II aswell never had issues

pLucy - August 16, 2016, 7:24 pm

fixed issue gave it to a homeless man

Duk3 - August 16, 2016, 10:18 pm

I purchase a pair of cloud2. I honestly because you have the wrong device selected for your discord. I dont have that issue never had that issue.

CatalystFTW - August 16, 2016, 10:31 pm

why is this in counter strike section tho?

SIM-3100985 - August 16, 2016, 11:43 pm

lol cheater god strikes back for leaking shaoware get rek noob

its a old meme nice external dude cant get a better cheat?

temporra - August 17, 2016, 12:41 am

Make sure you have the device as standard in windows. I had the exact same problem when I got mine, not too sure what I did to fix it.

STYLING - August 17, 2016, 2:46 am

What interface is that? When I connect headphones to my PC they are displayed as "Speakers" - never as headset/headphones.

?Darky - August 17, 2016, 3:56 am

Lol i have the same, its just a default setting you can't change

cptmckiten - August 17, 2016, 4:44 am

Solution is to get a good headset.

All jokes aside, I had the same issue and the only way I could fix it was getting a return. I guess I just got a bad pair.

Ken M - August 17, 2016, 4:47 am

Make sure the mic isn't mute on the physical box with controls.
