Thread: [Seeking CPA/PPD Mentor](#)

Mephaela - August 17, 2016, 5:13 pm

Hey there, first off a little bit about myself. I have been living on my own since I was 16, finding niche ways to make money, I have never worked a 9-5 job in my life, and have paid all my bills through doing my own thing at home. I am extremely good when it comes to making money, 100% self taught up until now, and once I know what I'm doing and I know I can profit at it, I will work tirelessly until I reach my goal. One thing motivates me, money, I like it a lot and I like to spend it a lot...

I've been looking into CPA/PPD as a method of making passive income, I'm shooting for a stable \$100/day, and am willing to work basically 24/7 to achieve that goal. I have done some research, watched a ton of videos, and made a few attempts, but it's a slow start, so I am wondering if there is anyone out there that would be interested in teaching/mentoring me on proven methods that work for them?

I'm more than willing to work out a deal where I pay out a % of profits for the time and help given, but I am also looking for quality mentorship, not just someone looking to make a quick buck off me.

If you think you could help me out with this, please contact me and I'd love to chat, I have a lot of ideas for niche markets, and am currently developing two mobile apps as well as a large scale website which I am hoping I can profit on in the near future.

Thanks for your time!
