Thread: [Free Dstat Graph , Long term effective](#)

tudabai - August 17, 2016, 7:48 pm

Free Dstat Graph , .

I can provide a free service for you dstat.

If you need to contact me skype mx90@90.cm

If you are interested you can talk to me.

I will give you information and results.

Bad English, I'm sorry

So do we have access to the graph or no?

Is it only 10Gbps?

BigDap - August 18, 2016, 9:40 pm

I have had a test of this graph and from what I see, being a booter owner, and getting graphs alot.

The 120Gbps graph was full of 20~Gbps at all times, which is normal.

That same graph showed my ESSYN well enough, but not NTP nor SSDP at all.

Tested the 10Gbps graph and the same followed there.

Otherwise great graph

GL

so are you saying this graph is generally always in use and wont give a straight reading?
most all graphs are under some degree of load at all times

PrincessHERO - August 18, 2016, 11:26 pm

vouch for my man i got the graph very fast

The 120 gbps graph is the same one used on dstat.xyz (Milkman's) graph, so its used a ton. There's a lot of traffic always.

is that one free or paid?
i haven't seen much on graphs as of recent
