Thread: [Best VPS for putty booter](#)

Bugattisport1 - August 17, 2016, 10:50 pm

Want to host my own booter, but not sure which VPS to use. Please give me some suggestions.

Outslaying - August 17, 2016, 11:03 pm

Buy a OVH.

The OG FurFag ? - August 17, 2016, 11:05 pm

For the last god damned time.

It is not a "PuTTY booter", PuTTY is an SSH client, and you're connecting to a VPS with a flood script.

EDUCATE YOURSELF.

-LSZ - August 18, 2016, 5:38 am

OMG this meme, makes me crying.

Xeon Quad Core L5630

CPU Cores: 4

RAM: 1024MB

Harddisk: 10GB

Bandwith: Unlimited

Uplink: 1Gbps

7.50\$/month

DumGraphix - August 18, 2016, 6:04 am

I got you a rooted server, 300mbps uplink \$5

Description - August 18, 2016, 9:38 am

I haven't heard someone call it a "putty booter" in forever.

Thanks retard OP

N00B1234 - August 18, 2016, 10:21 am

no OVH they alert and ban

amphpnode (dedicated but price is 59 min, seems to be good, not tested)
inulogic.fr (vps are spoofed, unmetered, they say nothing about ddos(test by myself))

and this list too: <http://pastebin.com/sQVeLP6z>

R?????obert - August 18, 2016, 10:25 am

chicagovps.net is fine they dont ban or do anything I've heard

LMFAO you quoted yourself on your post. What a retard. Learn how to operate HF before you talk trash, new kid. I just get on Hackforums to help or laugh. You happen to be something to laugh at, fucking clueless reject.

m1rk - August 18, 2016, 9:25 pm

Putty booter huh?

Maybe you should stick to the stressers atleast until you actually understand what "putty" is
Google it brother
