Thread: [60 day free Shopify trail! \[Start your own ecommerce store\]](#)

Arizonalce - August 18, 2016, 5:35 am

I've been using this for a while now to setup different Shopify shops, it's useful because it gives you enough time to see if your niche is worth continuing.

You can also sign up with a VCC if you don't fancy using your real card details, and ofcourse you can cancel it anytime.

I normally use the most expensive package and if I want to carry on with my site I downgrade it to the cheapest before the trail runs out

That's sick. I've been looking around for this 60 day trial but everyone turns out to be a 14 day trial. On my way to making bank hopefully now!

Thanks a ton! I'll definitely link this to my customers for my service.

No problem, I'm sure you'll be making bank in no time.
