No problem, just had a hunch. ?

When something looks too good to be true, it probably is most definitely too good to be true.

Also this is their contact page:

Not only is it hidden from their website, but it says right at the bottom:

"Gotcha, U have Backdoored"

Followed by a Error message.

Also, The Free Phone cloth offer is still on the website, but is hidden too.

From what i have read, both the fake offers are from 2009 or 2010, Which may or may not be true.
