Thread: [\[UNSATURATED\] PREMIUM E-WHORE PACKS | AUTOPILOT | METHODS | +10.000\\$ EARNED MONTHLY](#)

FireNice - August 20, 2016, 2:16 pm

Hello people, I began e-whoring 3 years ago, I made money and I improved my method for e-whoring, I'm using my own pack which I made myself and I won't share it, but I made other packs which are useless for me, they are good of e-whoring. All of the packs here were made by myself or by a mate who gave/sold me these packs. If you contact me I can propose you pack which aren't for sale here (called private). If you want more infos a pack (holding a paper, videos, selfies front of mirror, nudes, fingers up, toes...) you should contact me too, I keep this kind of pic because they aren't allowed on HF because of nudity. Premium packs are updated daily.

You'll earn 10x more with an unsaturated ewhore pack than a saturated one, it's problematic if 30 guys use the same pack at the same moment on the same website...

What's the best ? I earn \$40 daily with a legit job and \$500 in average with e-whoring, choose your camp.

-----  
WHY YOU SHOULD BUY YOUR PACK HERE ?

I only sell my packs 1 time and I remove them from sales to keep them unsaturated whereas other sellers call their pack unsaturated even if they sold to 30 differents people.

My packs are HQ, including verifications, videos and of course every girl is pretty, by this way you can earn more money.

If you buy my private methods, I guarantee you'll earn \$1000 daily minimum WITHOUT BLACKMAILING, it's premium methods you won't find reading shitty free HF ebooks, it's methods you have never seen before which will X5 your earnings. I'll mentor you and if you earn less than \$1000 daily, I'll refund you, but of course, it will never happen.

N.B: All my packs include videos, verification pics (feet pics/fingers up/holding a paper with customer name...), selfies (the best for ewhoring)

I practice the cheapest prices of the e-whoring community, I'll mentor you once you bought one of my pack and all of my packs include videos and verification pictures.

## ? Frequently Asked Questions ?

Spoiler ([Click to View](#))Q: Why should I buy one of your pack? There are a lot of ewhore pack sellers  
A: Because other sellers say "buy my unsaturated pack", they only have 5-10 packs, they sell 50 times the same pack, so how could the pack be unsaturated? They're just liars. Personnally, I only sell my packs one time.

Q: Which pack should I choose?

A: There are a lot of packs, you should choose the pretiest packs. Think like a customer. There are 100 girls on the same website page, who will the customer choose? The pretiest girls, you agree? Yes, that's logic. He'll ask for verifications pics and you'll provide what he asked for.

Q: Why shouldn't purchase a saturated pack from another ewhore pack seller?

A: It's problematic to ewhore if 30 guys on the same website are using the same pack.

Awful pack.

Bought #1 and got pics of a porn star (PRO PICS NOT AMATEUR)  
Got 26 useable amateur pics (semi-useable since some of them have WATERMARKS on them)  
After demanding for a refund user denied to do it and told me in his TOS it says he doesn't provide any refunds.

Sure man,you don't have to provide them when you give me what I paid for  
EDIT: Here's an example pic from the pack -  
If you want to pay 30\$ for pics like that then go for it.

OP Neg repped me because I don't want to remove this post. He asked me 10 times on skype so far.

I let you read my vouches.

N?ght - April 24, 2018, 11:50 am

DWC, im 99% sure half these vouches are lies and faked. Lies lies lies everywhere in this thread. How about you post some proof of a chat log + using his pics? Then ill believe you.

User clearly ignores the people that call the pack trash, and has open scam reports yet people still deal with him?

I messaged him for a mentor service, mentioned his DWC and scam reports saying I wanna use a middleman and he ignores me on skype... Nice

Im ready for my -3 for calling your ass out

Dont believe me? Lets begin

- User has open scam reports, fails to acknowledge them, and even commented with "dont waste my time" with scam reports with solid rep even tho its 2 years ago, just search up his UID.

Some may say thats whatever, a scam report? maybe he changed?... Alright lets pull up some ACTUAL reviews from his thread

1. Legit review from a buyer: <https://i.imgur.com/cN9NJSB.png> (Got negged, and OP did not respond to his message once after being ignored)
2. A fake vouch: <https://i.imgur.com/koGHCS9.png> . Sure we could say this guy is also lying, but what do you believe a random probably inspect elemented image of paypal? or this member. It could easily be proved with some more screenshots with chat logs while ewhoring with his pack but of course none of that showed up :)
3. Another bad review from an actual buyer : <https://i.imgur.com/slkbano.png> ... Using saturated methods, blah blah and he is being ignored.
4. User is using saturated traffic sites such as kiksnapme and etc... <https://i.imgur.com/cH01f3b.png> . Such a scam, charging people for public methods
5. Using a saturated pornstar for his pack... August Aymes... <https://i.imgur.com/EmgtcKq.png>
6. And to top it off, more potential reports <https://i.imgur.com/3QDSi43.png>.

All this was found in this thread , feel free to scroll through all and you will tell that this guy is fishy.

FireNice - April 24, 2018, 12:20 pm

I have 1 scam report opened against me for \$300 and it was 1-2 years ago, someone sent me an AGC already redeemed, so I didn't pay him, and I will ont. That's all.

I have been scammed for \$1.2k on HF and what ?

Also, it's easy to criticize saying I'm using August Aymes as a pack, but it's not the case, so of course there are similarities, I agree on that, but it's easy to quote others without analysis.

Saying you bought my private methods for \$5 and it was well known traffic sites like kiksnapme is also a shit. But it's easy to quote as always. Someone bought my private methods for \$5 whereas

I'm selling at \$200 and doesn't even post here, I never heard of him and I didn't deal with ^^

He probably bought traffic for 5\$ and you gave him that. Even then, it seems to be a common trend that everyone that gives you a negative review, youve never dealt with them. What about the fake vouches? or the shit ton of other people saying your pack sucks?

It's not fake vouches and I see no constructive argument here. Also you're telling I'm a scammer since I don't want to deal with you using a middleman and that my proof of earnings aren't my addresses etc... So what can I say ?

Also had the same thing happen. Wanted to buy the private method and he instantly said are u ready for the btc address. Then when i wanted to use a MM he didnt wanna do it. Not saying he is or isn't a scammer, but most of these HF methods are bullshit or scams.... So DWC.

**hUg33** - May 20, 2018, 7:44 am

this guy is a fucking joke lmao

**Kinecto** - May 20, 2018, 8:52 am

Received the private method, the "automated software for script" and an ewhore pack, guy seems nice, but I'm trying to resolve one issue, as it is leggally impossible for me to earn ammounts advertised, will update vouch if we resolve issue

EDIT:

The issue is not resolved.

So here is my vouch!

This guy seems nice, but what he sells shouldn't be allowed here on HF

First of: The packs, they doesn't seem like they are making it, they seem like they are from facebook, as their file names looks like downloaded from facebook... but who knows, maybe he simply download them from someone who is doing those photos and that's his own shit.

Then we have another simple method wehich I would rank as #Phishing #PayPal Fraud #Financial Fraud I know I can't tell about this method, it is against the sales thread tos, but if needed I can provide proof to back up my claims basiaclyly you use those methods agains paypal and amazon and that method is from someone else not @FireNice which he might have purchased ressel rights

Third, the main method which is advertised here as "If you buy my private methods, I guarantee you'll earn \$1000 daily minimum, it's premium methods you won't find reading shitty free HF ebooks, it's methods you have never seen before which will X5 your earnings. I'll mentor you and if you earn less than \$1000 daily, I'll refund you, but of course, it will never happen." So basically this method is

again breaking HF rules #Blackmail and Extortion so the rules are all here.

<https://hackforums.net/misc.php?action=help&hid=21> I'm not sure if I should open a scam report, as he delivered, and in the same time, he is selling illegal stuff here, so I have a little mindfuck now.

**FireNice** - May 20, 2018, 10:58 am

Is eWhoring legal ? I don't think so if you're afraid of practicing eWhoring, how you want to earn money dude ?

**hUg33** - May 20, 2018, 11:52 am

why did you give me a negative reputation for giving my opinion about you lol

Is phising and frauding money legal? no? do you see marketplace threads about it? no :) Whatever if ewhoring here is legal but Blackmailing not and Phising is not allowed, and you those three I can't understand why nobody cares... Lipssealed

Also your pathetic attempt to vouch on your own thread while you were on Team Viewer ?

My reaction to it lol

And some more of his logics..

More at scam report

Please be careful people.

**PDUB** - May 23, 2018, 2:54 am

I bought pack 6 and im going to leave my honest review. This pack wasn't worth \$40 most the vids are ripped off xvideos and don't look like her at all. Also the pics are not that great. I told him they were watermarked and he said I can crop them. For \$40 he should have taken the 5 minutes and done it himself.

**N?ght** - May 23, 2018, 1:51 pm

**GhostLikesToast** - August 5, 2018, 12:02 am

I'm extremely interested in this! Posting so I can find this thread later. I plan to purchase at least 1 pack from you in the next week or 2.

Please clarify the following for me:

So for example, if I were to purchase Picture Pack #4 for the listed price of \$29.99, does that mean that I would also get 1-on-1 mentoring from you on how to use the purchased Picture Pack to start earning? I'm new to E-Whoring and I've never actually attempted to E-Whore anyone yet, although I do believe I understand the basic fundamentals of it. It is my understanding that in this example, the 1-on-1 mentoring wouldn't include any of the private methods mentioned at the end of the thread. But what exactly can you guarantee me to make per day/week/month/etc at minimum with the knowledge I would receive from the mentoring that comes with a single pack purchase.

Sorry for such a long question. I just don't want to buy a picture pack and end up not making any \$ from it. Your vouches look good and I personally believe you to be legit, however this is the internet after all and one can never be too careful when it comes to making purchases on forums like HF.

Please reply via post/PM when you get the chance. ?

Do NOT buy this member's packs or services. I bought the \$200 pack to receive his mentoring, automated software and packs.

The only thing I received was a shitty saturated pack, the quality is so bad that the pictures look like they were take on a flip phone in 2006.

I NEVER got any of the mentoring or automation tools after asking he repeatedly on Discord to help. BEWARE!

The only thing I received was a shitty saturated pack, the quality is so bad that the pictures look like they were take on a flip phone in 2006.

I NEVER got any of the mentoring or automation tools after asking he repeatedly on Discord to help. BEWARE!

I never dealt with you ?

Really? Then mind explaining this contract?

Will be creating a dispute once I get home this week end.

At this point I'd prefer just to have my \$140 refunded to me since I've made several attempts of contacting you. Otherwise I will be filing a deal dispute tomorrow.
