Thread: [Need help bypassing WAF on this websitz](#)

userchange - August 20, 2016, 4:26 pm

I have a waf probleme in this url

Code http://www.bzaf.tv/video_player.php?id=225
ordr by does not work

Code http://www.bzaf.tv/video_player.php?id=225 order by 1also and+1=1

Code http://www.bzaf.tv/video_player.php?id=225+and+1=1Also Im asking please if there is a way to update or insert into by using union select sqli
Any help please

userchange - September 2, 2016, 7:16 pm

srill need some help please

up

DROP TABLE users - September 3, 2016, 10:31 am

I don't think this site is vulnerable to SQLi. I tried adding an ' after the id=255 and no error popped up.

(Sep 3, 2016 10:31 AM)DROP TABLE users Wrote: [\[CITE\]](#) I don't think this site is vulnerable to SQLi. I tried adding an ' after the id=255 and no error popped up.

That only works for error based sqli, union sql injection and blind based injection could still work

EDIT) No, it's not injectable

Thank you gor your reply :)

but I still think its vulnerable
