Yes! I only play anime related games!

^

I don't only play them but I have tons of them. Also have over 200GBs of VNs in my HDD.

**DerMensch24** - August 21, 2016, 5:24 pm

Most likely have either played a few or none at all, would have to double check myself what I have played that could be considered an anime-based game. Only one I can recall off the top of my head was a DBZ fighter game from a while back.

**Mafty Navue Erin** - August 21, 2016, 5:45 pm

I have played quite a bit of anime related/styled games. Definitely not all that I play but I have played my fair share.

**ankitkhosya** - August 21, 2016, 5:49 pm

Apart from VNs , i have played lots of dbz and naruto ninja Storm games.

VNs are something i could never really get into even after trying a few popular highly rated ones.

I don't think I have ever played an anime game

Might be because I only play a few games on PC and never had any console, except for Pokemon. Ah, now that I think of it, I watched Pokemon, Yu-Gi-Oh, etc. and played the games too so my vote wouldn't really apply anymore. Fuck.

I know we used to have a hardcore group of Osu! players on here, were all of them at?

Playing Osu!

**Cloaked.** - August 22, 2016, 2:03 pm

Osu! player here as well.

Never played VNs though, would love to play some in the near future however.

Apart from Osu!, I don't think I've played many anime related games. Actually wait, I did play some MMORPGs, Tree of Savior, Aura Kingdom..

**Happeh** - August 22, 2016, 6:33 pm

Depends what you really call anime. Final Fantasy is pretty close, specially if you're classing Osu! Otherwise I've played the Persona games and two or three different visual novels so tag me up for that third option on the poll.

I'm buying a PS4K just to buy all the Final Fantasy games available on it. Watch me.

**ponytrain** - August 22, 2016, 6:51 pm

Do any of the Pokemon games count?

I mean I don't own them all but I have a few on different consoles already so no need to buy a whole system for that shit. Rather just whip out the PS2 and save myself some \$\$\$.

Pokémon is an anime. So it should.

Yeah it does, but I don't know many people who haven't played Pokemon.

Miraculously I've encountered a few before, quite an interesting perspective being free of the Pokemon influence.

**ArmadyI** - August 23, 2016, 1:38 am

I played the stellaren VN

And tales of zestiria

Hardcore DDR player. It's the only Japanese/anime game I seriously play. If you don't know what DDR is:
