Thread: [Scammed By Jay Rock for 2 BTC \(\\$1158\) \[uid=2439052\]](#)

WhosYourDaddy - August 23, 2016, 10:55 am

Hello,

First of all, Let me explain you what exactly happened.

I was first approached by Jay Rock

First message :

[img]<http://image.prntscr.com/image/fad90b52a7384cd5a735d2f77fc8f623.png>[/img]

Later when i ignored him, he asked me for my skype.

<http://prntscr.com/c9ga3b>

<http://prntscr.com/c9ga7v>

After this, he added me in skype, with his Skype ID

<http://prntscr.com/c9gams>

He said lets go with Mansa as Middleman :

<http://prntscr.com/c9gbhg>

He kept on changing his Bitcoin rate, from 1.4 to 1.8 and then to 2.0 Bitcoin

Today before i made the exchange, Inorder to get High Bitcoins from me

<http://prntscr.com/c9gcg1>

Other Proofs of him suggesting of Mansa:

<http://prntscr.com/c9gcr9>

<http://prntscr.com/c9gd09>

I was frusterated at one point and asked him to go first, or get a middle man and not waste my time

This is the Screenshot of it, which he claims that i was making him to go first :

<http://prntscr.com/c9gd7e>

He added the Fake mansa to the group chat which he made

Proof: <http://prntscr.com/c9ged0>

And Later he started asking for more bitcoin exchange trying to get more funds out of me.

<http://prntscr.com/c9ge01>

When i said, the payment was completed, He suddenly replied to me saying that he doesnt have access to his computer, and he is online from his mobile and lets do it tomorrow,

<http://prntscr.com/c9gf0n>

To be honest, He was playing the Fake mansa all along, and which i can clearly see, I was just foolish and i trusted his words blindly.

He later pretended that i was lieing, Proof :<http://prntscr.com/c9gfmng>
<http://prntscr.com/c9gg35>

When i was forcing him to do an exchange today, he then started messaging me to get a refund, so that he could get away with this.

Proof: <http://prntscr.com/c9ggde>

He was using another his fake Mansa Skype account, and texted in the group chat "Jay transfer Skrill funds to me, and i will transfer it to him"

Clearly we can see that this guy was trying to get away with the Big Scam, by making me thing that the middle man scammed us, but the middleman itself was a setup by Jay Rock.

Proof:

<http://prntscr.com/c9gji47>
<http://prntscr.com/c9gia9>

I wasnt sure at first, if it was jay or mansa, So i had sent him an alert so he doesnt transfer his funds which he never had.

Proof : <http://prntscr.com/c9ggry>

Here is a Proof of him adding me and Mansa (His fake Skype) to the Group chat
<http://prntscr.com/c9gj19>

----- He started showing his double side when i said i will dispute in HF -----

Proof:

<http://prntscr.com/c9gjha>
<http://prntscr.com/c9gjgo>

And then he even said that "Mansa is Blaming on him" - LOL You must be kidding me?

Proof: <http://prntscr.com/c9gjvp>

then when i posted a dispute against him, He started blackmailing me
<http://prntscr.com/c9gk5b>

See this [LOL] (FBI) : <http://prntscr.com/c9gke6>

And then he starts Claiming this : <http://prntscr.com/c9gkqv>

And then he starts blackfiring me <http://prntscr.com/c9gkyh>

<http://prntscr.com/c9gl67>

<http://prntscr.com/c9glbl>

And Later he blocked me with his last messages : <http://prntscr.com/c9glha>

Conclusion: He introduced me to fake mansa, in Skype, He says he just searched mansa, and found his contact in his list, and then added it to group, which is not true, you guys can clearly look at the messages and conversations which we had in group chat, and also the way he was egarly wanting to get this transaction done.

After transferring the Bitcoins to the Fake mansa's account, he guy messages he is going offline, and stuff, where as in HF and else where he is online.

Proof: <http://prntscr.com/c9gqx1>

He lies alot, and I am sure any one can find out who is scamming whom, clearly. and it is a trap by Jay Rock, And i have all the proofs proving it.

More information on his Fake middle man sending me message in HF :
<http://prntscr.com/c9grha>

His URL : <https://hackforums.net/member.php?action=profile&uid=52726>

Proof of me Transfering 2 BTC to his address:
<https://blockchain.info/address/1F5YGfi1btGk6wg6XR5oe7cfZgkM3o4Q4t>

This guy is a pure scam, He started blackmailing me, and threatening me saying that he will report to some authority, and some other shit.

@Jay, I dont really care bro, Go report to any one, You have scammed me, and every one can see it clearly,

Looking for Justice from all the Hackforum Members, and Requesting everyone to Stop dealing with him

And i will provide more Proofs and other information If he requests or if any member in HF requests me to.

Looking forward to get help

Thank you!

Mansa doesn't even offer middleman services, how did you fall for this scam?

Always verify who you're dealing with. It sucks you got scammed 2 BTC, that's a lot of money.

It's a hard and costly lesson you learned. Always confirm deals & identities of the parties that you're dealing with off-site and you'll never get scammed by an impostor.

Exactly what Mini said. I have a tendency to be overly nervous in every transaction i make which is a good thing because i will never send anything until i am 200% sure that i am dealing with the real person. I am sorry for your loss bud, that is a lot to lose at once :(

His "side account" has been closed. I haven't really taken a look at this except the "side account" getting closed.
Sorry about this but this has been happening a lot to me.
