Thread: [Pokemon GO Boosting - Leveling - Egg Hatching - Stardust/Pokemon Farming + NO BAN YET](#)

Tradezomg - August 23, 2016, 3:59 pm

Hello. I currently have been very successful in botting up accounts. So you guessed right, this service is done via botting, however, it is configured to human settings and runs for around 12 hours daily. I can customize your order to your need, whether you need potions, pokeballs, pokemon, leveling, or even just pokefarming for stardust. I'm sure there are other things I can do for you just ask.

Vouch Copies Available 1/2

\$? Custom Orders

\$5 per 6 Hours

(Prices COULD be negotiable, just ask)

Spots Available 1/3

If you want a fresh account to be started, I can do this also. Comes with a few rares normally, and some very nice pokemon in general.

ToS :

I am botting these accounts. I take no responsibility for anything that happens to the account what so ever. That being said, I have yet to have a ban with my settings (fingers crossed)

I'll take a vouch copy if none have been given out yet. I can leave an honest review once I'm done observing the account.

I'll take a vouch copy and will leave honest feedback about the account.

Sorry but I don't use Skype. I'll PM you now for the vouch copy.

Tradezomg - August 23, 2016, 7:44 pm

Both Vouch Copies are taken now. There is currently 1 slot open for any sort of boosting.

Do you bot these via coordinates or based off someone's location?

Tradezomg - August 23, 2016, 9:51 pm

I bot via a location, and it walks around the pokestops and such. I can put coords in, but I have no need to.

Sorry its a bot, I can't guarantee anything if something goes wrong, but it is very unlikely.

What would be the compensation if something were to go wrong? for instance would there be a refund or is this service solely at the users risk?

Solely at the users risk, sorry its how I run any of my businesses that deals with a bot.

Huge vouch. Guy is legit and does exactly what he says he can. Do not hesitate to deal, I highly recommend these accounts!
