Yeah, I agree with you. He thinks that he can abuse his power since he just got staff. ?

FUCK YOUR COUCH - July 12, 2010, 11:03 pm

Wow, you get 20 points for that?

Never knew.

I don't like him at all, but since he warned me 20% for "increasing message count with similar characters", I might as well report every post like that right, just for him.

Problem is, I can't find a reason.

Threadlocks - July 12, 2010, 11:04 pm

i think it Should be low for First time or small warn should be fine

@zorataa I agree that you shouldn't get warned (for 2 months and 20%]:) but if Rusty warned you he had his reasons.

mKn1ght - July 12, 2010, 11:05 pm

This is not allowed though, but 20% for 2 months, is kinda gay imo.

KRB - July 12, 2010, 11:06 pm

Im sure there is some inner reason why rusty gave you said warning for so long

??¢??? - July 12, 2010, 11:09 pm

i agree with you he has been abusing his powers :/

Kr4z1 - July 12, 2010, 11:09 pm

He is just enforcing the rules, it's not like he didn't give you the warning for no reason at all >.<

Kaleb - July 12, 2010, 11:10 pm

Actually thats the proper action on his part.

Zach - July 12, 2010, 11:11 pm

If you want to get technical, unlimiting PayPal's IS against the rules, as the info you use to verify it could easily be carded.

Just go along with it, learn from your mistake, life goes on.

Because the only way for someone else to unlimit your paypal is fraud.

Swat Runs Train - July 12, 2010, 11:13 pm

Unlimiting a paypal is in no way fraud, depending on the steps needed to do so.

lol...

You need to add a bank account + verify it on the statement for US verifying, can you literally look at me with a serious face and claim that someone would be so idiotic and let a random person on the internet use their bank account?

Omniscient - July 12, 2010, 11:18 pm

Everyone saying Rusty is abusing just got -10 warning.

Staff does not decide the points or the time to give any reps. I have them preset. Rusty doesn't make the rules or policies. I suggest you read them. I've been giving the same warning as Rusty did for a very long time.

RUS7Y - July 13, 2010, 3:23 am

We don't decide the % of warning or time limit of the warning.
