Thread: [BJORK TUT | 2 Simple Methods to close any FB account.](#)

BLOW. - August 24, 2016, 5:17 am

First, any Account exclude very popular Persons because have facebook protection!

First method:

You can easily close any Facebook Account, you only 2 Infos.

- Real Name
- Date of Birth

but it is good when you know more personal things like the mail and the Address.

Create a new FB Account with the same Surname pretending to be the Uncle/Ant/Mother/Father. Than write the Facebook Customer Service that your Niece/Nephew/Kid with the targeting Facebook Account has died and there Partner is using it.

Send them a faked Certificate of Death with the Name and Birthday changed.

They will close the Account as soon as possible and it will be very very hard for the Person to reopen the Account.

Second Method:

Create a Facebook Account with the same Name and write the Customer Service that the Account and your E-Mail Account was hacked and you have no access to. Say that you not logged in for couple of month because you where on a Sailing Turn or in Africa or whatever.

They close the Account for further Account checking (they will ask for ID).

When the Victim send them the ID, they reopen the Account, but you wrote them that your Mailaddress is hacked too.

In the Moment they reopened the Account write them another Message that the Hacker used your ID from your send mails Folder to make stuff under your Identity!

It will be easier to reopen the Account for the victim, but you can do it twice and on the second Time it will be a pain in the Ass for the Victim!

I saw cases where Facebook banned that Person from their Services!

The Mothods work for more Services like Twitter

venetikidd - August 27, 2016, 2:42 pm

I like the first method better, thanks OP.

~ **Left HF For Good** ~ - August 27, 2016, 5:57 pm

Damn, that is actually a pretty good idea OP. Thank you for this share, I will give this a shot some time. Thank you very much for this.

DONT USE ROCKETR - August 27, 2016, 6:21 pm

First method seems pretty complicated but nice none the less

BLOW. - August 27, 2016, 6:32 pm

No problem, is an method i've used in 2015 i don't know if he always work

Yeah, I wouldn't see this working 100% of the time, but I would say maybe 70% of the time this method would work.

darcdao - August 30, 2016, 9:54 pm

Awesome method. Second one looks easier but the first one might work better.

Gamer Fusion - August 30, 2016, 9:59 pm

Nice method haha, thanks for sharing this with us.

SIM-2470866 - September 1, 2016, 12:19 pm

Nice guides, but where to get a death certificate bro?

Kazumo - September 1, 2016, 4:20 pm

Haha, this is crazy. NakedTurtle, you can find some on google, I'm sure of it. Even for your own country. I even found a model that you can fill in yourself. Pretty interesting tricks, thanks for sharing, op!

NextBigOne - September 2, 2016, 1:32 am

Can vouch for this I've done this before on various people. Takes some time but does effectively work.

iLoveGaming - September 2, 2016, 1:32 am

Thanks for sharing dude :D

D.entist - September 2, 2016, 4:29 am

Loving the method OP thanks :D I've managed to get a couple of certificates from a Google search hope they do the trick.

(Sep 2, 2016 01:32 AM)NextBigOne Wrote: [\[CITE\]](#) Can vouch for this I've done this before on various people. Takes some time but does effectively work.

Which method did you use, and how long did it take for Facebook to close the account?

NextBigOne - September 2, 2016, 3:44 pm

Which method did you use, and how long did it take for Facebook to close the account?

First method and usually take 4-7 days.

Pro tip: Make sure you use the proper certificate of death for which ever country/state/province/etc. that the person lives in, do your homework. I know it's common sense but some people lack that now a days.

Cheers.

.Chrome - September 4, 2016, 11:27 am

Anyone got a good fake germany certificate?

Thanks in advance.

Ventriloquism - September 4, 2016, 11:49 am

I've tried the first method, but not the second one. Will try later. Thanks ?

HF_LEECHERS - September 5, 2016, 10:07 am

The first method seems promising, but I have problem with dead certificate, any template u have?

venetikidd - September 6, 2016, 12:01 am

(Sep 5, 2016 10:07 AM)HF_LEECHERS Wrote: [\[CITE\]](#) The first method seems promising, but I have problem with dead certificate, any template u have?

Yeah finding good templates is slightly difficult.

Paul.Aubin - December 23, 2016, 1:26 pm

GOOD :) thanks you for the mhétode
