Thread: [*PRIVATE* Method Release - Grayhat \[LIMITED TIME!\]](#)

W?lr?? - August 24, 2016, 4:39 pm

Hello,

After a lengthy period of time with keeping this method private, I want to release it to a selective amount of members who are willing to preform the method. The method is exceptional at providing an extensive amount of money, and has recently gotten me over one thousand dollars this month alone. Currently, I have a large project that will accommodate my time and I will be transferring my focus to that project instead so I have decided to release the method to others who could make money with the method. It does require an investment, but you could start out with \$5 and build out from there.

If you are interested in the purchase of this method, I will be selling it in this pattern:

First Buyer - \$300

Second Buyer - \$350

The method also includes support through Skype chat. If you want basic support for the method, I will help you out with advice through Skype. I have ran the method myself several times, so I am aware on how to preform it well.

* I will not be selling it to more than two (2) buyers. If you are interested in this method, please contact me through PM, otherwise you may miss your opportunity for a private method release. I will only be selling the method through Bitcoin. Middleman's are welcome if you are interested in using one.

Thanks and I hope you have a great day.

Okay, so 'therobotrbt' ad I have just been talking on Skype for a little over an hour, and this is what I have to say:

First of all thanks for not making this an eBook, OP will explain this method to you via Skype, discord, email whatever you like.

As I said, we spoke for just over an hour and he made everything 100% clear in plain English, all my questions were answered promptly and in depth.

Yes, the method does work. And it will be worth the price-tag as long as you can invest. Don't bother buying this if you only have 300 bucks. Buy this if you are interested in SAFELY tripling investments. I can't stress the word safe enough, as most methods have a chance of you losing money.

If you invest 20 bucks you won't be making 100's to start with.

I personally suggest investing about \$200 into this, if you get started with anything above 150 bucks you could make 50-150 a day. Then stack that back into investments and within a few months you could happily make a grand a week. (On some days it will be possible to make nothing, on others possible to make two times that)

OP explains two methods, one whitehat and the other greyhat, the greyhat method will earn you about three times as much as the whitehat, and doesn't involve anything unethical.

I will be investing \$20 into this to start with, I should see around \$60 within the next 2-3 days. I will continue to stack this into about a \$400 (\$200 x2) investment, using the greyhat I should see around a grand income in 2-3 weeks.

\\

On a side note I would like to add this can be done 100% though Bitcoin, and does require an investment.

Good luck with sales OP, and if anybody is curious about anything I said above PM me.

I recommend that you give a vouch copy out to a reputable user.

U.F.O. - August 24, 2016, 6:28 pm

Would like to see more details about it.

How much would you make from \$100 in how much time?

How often can you do it?

How "grayhat" is it?

SIM-82498 - August 24, 2016, 6:33 pm

There are a ton of "private" money making methods for sale, what makes yours distinguishable from the rest? How can we justify the large price tag?

How "grayhat" is it? Thanks for your interest. \$100 can be made depending on an investment. I started out with a \$100 investment and got \$300 back reliably within one and a half weeks. Every transaction will take about 4 days. You can run unlimited transactions, though, meaning after months you could scale to thousands of dollars a day.

It is between white hat and black hat. The method is unmoral, but you are not causing harm to an individual person.

My method is focused on making money and it is distinguishable because it actually makes money. It is a private method, so the price tag is justified by that. You also receive Skype support from me until you learn the method.

Yes would like to see some proof

U.F.O. - August 25, 2016, 4:37 pm

How much effort is required?

If I invest \$100 am I guaranteed to make money?

You said you turned \$100 into \$300 in week and a half and each transaction takes 4 days and can do it unlimited times.

If I take \$100 x 5 transactions, how likely am I to receive \$1500?

\$300 x 5

\$300 x 5

It takes less than 20 minutes for each transaction. (That means \$300 for less than an hour of work.) Every 3 transactions requires a new investment and then you can get back \$300. There is no static amount. You could do transactions up to \$300 for each transaction and end up with \$900 every 12 days. You could run the method by multiplying it and get 100's per day, easily.

The method is virtually zero risk. If you make a mistake, you will get the same amount of money back as you did when you invested.

Social Engineering
or fraud?

Also try get a vouch copy given out to somebody reputable. I'd be down for getting one but if it's SE'ing then give it to somebody else.
Good luck with sales mate.
