Thread: [So this video became a top trend on YT & Twitter on Saudi Arabia - \(See inside\)](#)

**Namoor3** - August 24, 2016, 5:05 pm

So this video became a top trend on YT & Twitter on Saudi Arabia, Which shows a Hacker Group claiming to have hacked an Iranian Propaganda Channel, Personally i felt like this was faked & was made by video editing which is really easy to do, & It just seems to dramatic. like the noise & the screen with their logo & the scary music on the background etc.,.

Do you guys think its real or fake? I'll drop the link to it on the bottom.

What i posted this for is that, Alot of lies have been spreading around these days with apps like "WhatsApp" & many seem to believe it. INCLUDING Popular Arabic TV Channels such as "Al Arabiyya".

Like that one time Obama cried because of the passed away kids at a school shooting, Someone made a video & faked the subtitles. [youtube.com/watch?v=wo3E-f58mt4](https://www.youtube.com/watch?v=wo3E-f58mt4)

It was talking about how Obama "apologizes for not giving a shit about Syria" & that he is going to free Syria from ISIS & is going to kill himself after as a way of apologizing - & Life is going to become Beautiful again at Syria. This isn't the original video since the Original one wasnt posted at YouTube, But everyone was believing it & damn it made me feel sorry. This is nothing compared to some other lies that were spread, Such as: "Hell is coming in 3 days" that was also trending, & "World War 3 is Coming next week" etc.

So i feel like i want to do something about it, If that hacking video was indeed faked i want to make a similiar one but with "hacking" an ISIS TV Channel & see how fast it'll go trending - Then i'll reveal that it was faked. Just to show them how easy it is to decieve hundreds of thousands.

Here is the "Hacking" Video i was talking about: [youtube.com/watch?v=KYMZK0nT03c](https://www.youtube.com/watch?v=KYMZK0nT03c)

^ This one also isn't the original one, I Can't find the original one. Its probably been unlisted or something.

Also at 0:28 the music on there is whats called a "Sheela" Its arabic music that alot of arabs really like, Its that type of music that not many people have anything against. Unlike other music, like Guitar Music - Which is "Okay" but some people hate it. That song was about terrorist groups that were blowing up islamic mosques @ Saudi Arabia, & Some Saudis who were driven to kill their parents or cousins, some messed up shit like that started happening alot this year. People influenced to do bad stuff bcs they'll supposedly go to Heaven or get 72 virgins, even though in Islam it says that killing yourself anyway leads you to hell.
