Thread: [Xml Formating after convert word to xml file](#)

offpageseo - August 25, 2016, 7:47 am

I need some Help

Need xml formating in xml file , i have done to create convertor word to xml and pdf to xml but still xml format not beacome my requirement

the attachment sample xml file format is required

i will show you problem via teamviewer on my laptop or pm me on skype. aftabkhatri1

Note: need soure code of this logic in c# language.

Not sure what you're asking for? If you need to format your XML file you can use the following site: <http://www.freeformatter.com/xml-formatter.html> which will correct any indentions and make your file look neat. :) If that's not what you're asking then sorry, just explain it further to me (via PM) and I'll be happy to help!

Thanks for your response , Actuall need a offline app where I can upload pdf file or word file then convert it through c# app

my file is convert into xml successfully but not create a format that I want

<http://www.cvlizer.com>

this is link where online convert word file its xml format is really so nice

I need same result of that , with internet or offline mode

i hope you getting my point

Yes, I understand what you mean now.

If you need just a part of the PDF file in another format, you don't need to convert the entire file and then extract the relevant content. You can select text in a PDF file and save it in one of the supported formats: DOCX, DOC, XLSX, RTF, XML, HTML, or CSV. Use the Select tool and mark the content to save.

... If you still need to download it, then you can download the programs listed on the website below:

<https://www.iskysoft.com/pdf-tips/convert-pdf-to-xml.html>

The above website has a list of working converters for you to download.

Hope this helped! :)
