OP was asking about which anime intros were the best, but if you also meant to say that you enjoyed those intros as well then it counts for this thread ;)

RainbowHentAi - August 25, 2016, 4:12 pm

I don't really have a top four, but I do have a favorite one and it's [Gangsta's OP](#)

They are called SD Gundams aka Super Deformed Gundams.

There was a parody version of Mobile Suit Gundam that first featured SD versions.

Most people remember SD Gundam because of:

https://myanimelist.net/anime/2391/SD_Gundam_Force?q=sd%20gunda

Except SD Gundams are widely hated in the Gundam community for being too goofy looking.

The ones featured in TRY are actually badass though. Especially Fumina's second one.

-snip-

I can't disagree with you.

Nevieth - August 25, 2016, 9:49 pm

From recent anime releases there's two that stick out.

Cheer Danshi!! opening 1 -

91 Days opening 1 -

Not sure if 91 days opening linked is original or not, as the original op scene is impossible to find.

Zexo - August 25, 2016, 9:50 pm

Tokyo ghoul is the only one for me.

If you like Tokyo Ghoul's opening you should listen to the 91 Days original opening. Think it's the same band.

O wow, I actually remember that they made that one.... guess my brain tried to save me from recollecting that haha.

Hard to choose 4, but here's 3

[Orange](#)

[Little Busters!](#)

[Durarara!! \(Loved all the openings, but the first one has by far the cleanest transitions while also helping us remember the characters' names and personality. Very superior opening\)](#)
